## **PREFACE**

This volume contains a series of Special Tables for Scheduled Castes and Scheduled Tribes. These Tables will give an insight into the demographic, social and economic conditions of the Scheduled communities. As in 1951, no questions were asked about the caste in the 1961 Census also. But in view of the safeguards provided in the Indian Constitution for the Scheduled Castes and Scheduled Tribes, a question was asked of each individual whether he or she belonged to any of these communities. On the basis of answers to this question, the slips were sorted out and the Special Tables published in this volume were prepared.

For the last 15 years or so, the Government of India, through the Five Year Plans or otherwise, have taken up several measures, besides general development schemes, to improve the conditions of these communities by implementing welfare schemes. In the implementation of these schemes much difficulty has been experienced for want of adequate data. On account of the coincidence of the 1961 Population Census with the completion of the Second Five Year Plan of India, it was felt that exhaustive and detailed information about these Scheduled communities should be collected during the actual enumeration of 1961 Census, and it was also intended that the data thus collected were made available through these Special Tables for examination of the various schemes to be implemented during the subsequent plans.

This volume consists of two Sections--Section I for Scheduled Castes and Section II for Scheduled Tribes. The salient aspects of the Tables have been briefly discussed in the Note, and a fly-leaf to each of the tables published in this volume is also given before the relevant table is presented.

I am grateful to Shri K. D. Ballal, I.A.S., Central Tabulation Officer who kindly scrutinised the tables, prepared by the Tabulation Office at Imphal and made a number of valuable suggestions and alterations. My thanks are also due to Shri M. Tekkjishore Singh, Tabulation Officer and the staff who worked under him for having done an excellent job of work.

## GENERAL NOTE

At the outset it was decided that the 1961 Census Reports for all India and the States/Union Territories should maintain uniformity of title to be given to the series of publications. Thus each of the series of publications relating to the States and the Union Territories of India was allotted a separate volume number, the series for all India Reports bearing Volume No. I heading the list and the volumes for the States/Union Territories following in their respective alphabetical orders. For Manipur, Volume No. XXII was allotted and under this volume the series of 1961 Census Publications are printed and published. Contrary to the previous proposal for printing each part separately, Parts II-A, II-B, II-C, III and IV of Manipur is published in this book, with indication of Parts, under the title "Part II (Including Parts II-A, II-B II-C, III and IV)", as these parts can be combined

in one book.

All the main series tables of 1961 Census, namely, A-Series—General Population Tables, and PCA; B-Series—Economic Tables; C-Series—Cultural and Migration Tables; D-Series—Household Economic Tables; and E-Series—Housing and Establishment Tables of Manipur have, therefore, been incorporated in this book.

To facilitate ready appreciation of the Parts published in this book, Explanatory Notes along with the relevant questions and the instructions issued on the mode of filling their answers are also given at the beginning of each part. Fly-leaves to the main tables and their appendices are also given before the tables are presented in this book.

## INTRODUCTORY

For the first time in the history of the Census of Manipur a Superintendent of Census Operations was appointed exclusively for Manipur for the 1961 Census. At the instance of the Registrar General of India the office of the Superintendent of Census Operations was established on the 1st August, 1959. The office was placed under the direct control of the Registrar General, India and the office had to carry out the 1961 Census Operations in Manipur in liaison with the Manipur Administration.

2. The sunrise of 1st March, 1961 was declared to be the reference date for the 1961 Census. The period of enumeration covered nineteen days, from the 10th February to the 28th February, 1961 both days inclusive. After the period of enumeration three days were earmarked for the period of Revisional Round during which the Individual Slips for those who died during the enumeration period were to be cancelled and new Individual Slips for new babies born during the enumeration period were to be written. The period of revisional round in some areas of Manipur was extended by two or three days more on account of difficult communication. In the disturbed charges of Tamenglong and Mao the period of enumeration had to be extended till April 1961 on account of the unhappy law and order situation created by the activities of the Naga Hostiles.

3. As the office of the Superintendent of Census Operations was established only on the 1st August, 1959 the prescribed pre-test could not be completely carried out. As the Statistical Bureau was in an infant stage by that time the first pre-test was not carried out at all. For the second pre-test the Superintendent and the Assistant Superintendent personally carried out the test in two villages in the Bishenpur Sub-division. Of the two villages one was a tribal village. From the pre-test it was found that the format of the individual slips could not be handled conveniently. Peculiarly for Manipur the filling up of the Census Schedules took more time in the rural areas than in the urban areas, because the villagers could not readily understand the questions. The findings of the pre-test were considered

in the First Conference of the Superintendents of Census Operations. As a result the defects found in the pre-test were removed in respect of Manipur also.

4. For the proper understanding of the Census Schedules by the Census field staff it was proposed for Manipur to print the Individual Slips, the Household Schedules and the Houselists in Manipuri which is known throughout the length and breadth of Manipur. The translation work was done by the Census Office and the printing of the Schedules was effected in the Government Press, Calcutta. On account of the uneconomical size of the pads of the Household Schedules which were bound in 50's there was shortage of the Schedules and some pads were printed in a private press at Imphal at a competitive rate. As the printing of the Schedules in Manipuri was a little delayed the training of the enumeration staff could not be started in accordance with the Census Calendar of Manipur.

5. In the 1951 Census there were 13 Charges in Manipur according to the administrative units obtaining at that time. But in the 1961 Census the number of Charges was reduced to 12. While one Charge was delimited for the Imphal Town and two Charges were formed for the distinct administrative units of Mao and Sadar Hills, the other Charges coincided with the Sub-divisions of Manipur. In view of the growing nature of the Imphal Town, a separate Charge was formed though the town covers two parts of the Imphal West and Imphal East Sub-divisions. In consequence of the recent re-organisation of the administrative units of Manipur the nomenclature of the Charges of the previous Census could not be followed in the 1961 Census. Curiously, as upto-date Sub-divisional maps were not available, the Census Office prepared the Sub-divisional maps showing the Supervisors' Circles and the Enumerators' Blocks. Nor was there any agency available to this office for the preparation of the required maps. It is, therefore, a matter of regret that block maps could not be prepared. However, as the enumerators and supervisors were posted at places where they were

working or living and as they were controlled by the Charge Superintendents who were mostly the local Sub-Deputy Collectors the delimitation of the boundaries of the Census Circles and Blocks was not much of a problem. In the valley the Supervisors personally divided their circles into suitable blocks of five or six with reference to the composition of the villages and the position of the roads, lanes, etc., and each block contained 150 houses or so. There was a very slight variation of the number of houses from block to block.

6. The hierarchy of Census Officers in Manipur in the 1961 Census was the Charge Superintendent, Circle Supervisors, and the Block Enumerators with the Superintendent of Census Operations assisted by an Assistant Superintendent, at the top. Nearly the whole of the army of the Enumerators was recruited from the staff of the L. P. School teachers of Manipur. While the majority of the Circle Supervisors were also recruited from the staff of High and Middle English Schools, there were a few of them recruited from the staff of the Revenue and Forest Departments. The duties of the Charge Superintendents in all Charges except that of Imphal Town were entrusted to the Sub-Deputy Collectors of the Sub-divisional headquarters. In some of the Sub-divisions, as there was only one Sub-Deputy Collector each for the whole Sub-Division the additional work of the Census was not welcome. In the Charge of Imphal Town an officer of the Imphal Municipality was appointed Charge Superintendent and the services of another official of the Imphal Municipality were available and were used in carrying out the duties of a Circle Supervisor. Five or six enumerators were put under a Circle Supervisor and all the Circle Supervisors of all the Circles constituting a Charge were placed under the direct control of the Charge Superintendent. Unlike the procedure adopted in the 1951 Census the whole of the enumeration staff were recruited and posted by the office of the Superintendent of Census Operations.

7. As regards the houselisting and the house-numbering operations in Manipur the staff who were appointed for the actual enumeration were given the task. In one sense that added to the proficiency of work in the actual enumeration as a result of the familiarity of the enumerators with

their blocks prior to the actual enumeration. Owing to some administrative difficulties the recruitment of the enumerators was belated and consequently the houselisting and housenumbering operations were completed only in December. At a flat rate a sum of Rs. 5-00 nP. was given to all enumerators for houselisting and housenumbering and they provided themselves with paints prepared with kerosene oil and charcoal-dust for housenumbering. As the law and order situation in Mao and Tamenglong Sub-divisions of Manipur was deteriorating as a result of the hostile activities of the Nagas the houselisting and housenumbering operation could not be regularly carried out alongwith other Sub-divisions. It was, however, made up during the actual enumeration which was carried out in synchronization with the movement of the army patrols.

8. In addition to the supply of the Manipuri booklets of instructions for houselisting and enumeration the enumeration staff were given adequate training. Exclusively for enumeration the enumerators and supervisors attended three classes. The Charge Superintendents who were trained by the office of the Superintendent of Census Operations conducted training classes attended by the Supervisors and Enumerators. After that the Supervisors trained the enumerators of their own circles and when the enumeration period drew near the staff of the office of the Superintendent of Census Operations conducted one class more which was attended by all the Enumerators and Supervisors.

9. In conformity with the all-India schedule the Census count was started on the 10th February, 1961. In the first week of the enumeration period the enumerators did their work during the off-time of their school hours. Finding that the progress was very slow the enumerators requested the Superintendent to move the relevant authorities for giving them some days' leave from their schools so that they could complete the enumeration of their blocks during the stipulated time. The Chief Secretary to the Manipur Administration was kind enough to declare 7 days' leave from normal duties to the Census Enumerators and the Supervisors. The enumeration work was fairly accomplished.

10. Regarding the Revisional Round it is regrettable to note that the enumeration staff did not evince the same keenness. In the hill areas a little reluctance was discernible on account of the difficulties of visiting all the houses of the scattered hamlets of the blocks within the short period. In the valley also the Holi festival which came off on the 2nd March, 1961 hampered the work. However, in view of the great importance of the revisional round the period was extended upto the 7th March with the concurrence of the Registrar General, India.

11. Because of difficult communication in some areas the reporting of figures presented a problem. In the hill Sub-divisions there were blocks which were at a distance of four days' march from the Sub-divisional headquarters. Besides owing to the absence of telephone facilities in the office of the Superintendent close contact could not be maintained with the Sub-divisional headquarters. Though some of the Charge Superintendents used the Police Wireless Grids for transmission of the provisional figures a good deal of time was taken in collection of the figures from the blocks and circles.

Some Charge Superintendents including those of the valley used runners for the transmission of the provisional totals. The provisional totals struck in this office for the whole of Manipur and transmitted to the Registrar General, India did not show much of difference with the actual figures.

12. There were two or three patches of non-synchronous areas for which emergency arrangement was made with some of the reserved enumerators and the initial tabulation staff of the office. For such areas extended code numbers of the neighbouring blocks were used. Except those areas which were within the sphere of the violent activities of the hostile Nagas there was no special non-synchronous area in Manipur. Further, the enumeration of the houseless population was not at all a problem. If there are demented persons in certain villages of Manipur they never turn into vagabonds. They follow the diurnal habit. At nightfall they generally go back to their houses for food and sleep. Only in the Imphal Town five or six such persons were found sleeping under the sheds of the market stalls.

### CENSUS CALENDAR

13. The Census Calendar of Manipur for the 1961 Census was framed as follows :—

1st June 1960 to 31st July 1960	<ul style="list-style-type: none"> <li>(i) Appointment of Enumeration Staff</li> <li>(ii) Delimitation of Enumeration Blocks</li> </ul>
1st August 1960 to 31st August 1960	<ul style="list-style-type: none"> <li>(i) Training of the House numbering and Houselisting Staff</li> <li>(ii) Preliminary Training of Enumerators</li> </ul>
1st September 1960 to 31st October 1960	Housenumbering and Houselisting
1st November 1960 to 30th November 1960	Collection of House lists and Distribution of Supervisors
1st December 1960 to 31st January 1961	<ul style="list-style-type: none"> <li>(i) Intensive Training of Enumerators</li> <li>(ii) Distribution of Forms for Enumeration</li> </ul>

10th February 1961 to 28th February 1961 }	Enumeration
28th February 1961 (Night)	Enumeration of Houseless Persons
1st March 1961 to 3rd March 1961 }	Check Round in the Hills
1st March 1961 to 7th March 1961 }	Check Round in the Valley
4th March 1961	Submission of Provisional Totals by Enumerators to the Circle Supervisors in the Hills
5th March 1961 to 7th March 1961 }	Submission of Provisional Totals by Circle Supervisors to the Charge Superintendents in the Hills
8th March 1961	Submission of Totals to the Superintendent by W. T. or Telegram from Sub-divisional headquarters of the Hills
8th March 1961	Submission of Provisional Totals by Enumerators to the Supervisors in the Valley
9th March 1961	Submission of Provisional Totals by Supervisors to the Charge Superintendent in the Valley
10th March 1961	Submission of Provisional Totals to the Superintendent from the Sub-divisional headquarters of the Valley
11th March 1961 to 31st March 1961 }	Collection of Enumeration records

14. The above calendar was revised on account of unforeseen circumstances. It is a regret to note that a considerable length of time was taken in getting a list of the L. P. School teachers from the Manipur Territorial Council to which almost all the primary schools of Manipur had recently been transferred. Then as the printing paper from the Calcutta Agent, with which the Government of India had placed orders for supply of paper, was received

at this end at a very late stage the appointment letters for the appointment of the enumeration staff could not be printed in time and the enumerators and the supervisors were appointed much behind the scheduled time of the calendar. It was, therefore, found imperative to revise the calendar for the whole period prior to the Actual Enumeration. The revised portion of the Census Calendar is shown below :—

1st November 1960 to 30th November 1960 }	(i) Training of Enumerators.
	(ii) Distribution of houselists to the Enumerators.

1st December 1960 to 31st December 1960	Housenumbering and Houselisting
1st January 1961 to 31st January 1961	(i) Refresher Training of Enumerators (ii) Distribution of Enumeration Slips, Household Schedules <i>etc.</i> to the Enumerators
1st February 1961 to 9th February 1961	Final check up of the Charge Superintendents over the Supervisors and Enumerators

15. In the light of our experience it is felt that if a period for checking filled-up schedules, pads and abstracts by the circle supervisors had been interposed in the census calendar it would have facilitated the supervision of the Charge Superintendents over the supervisors and the expedient collection of the enumeration records.

#### The Houselist

16. The standard Houselist which was used is reproduced in this volume (Pages 30-31).

The enumeration staff were instructed that along with filling up of the houselists, the houses also should be numbered. The location code of the villages of all Charges was prepared in the office of the Superintendent. The Enumerators were instructed to use the appropriate code numbers of the villages by referring to the Location Code. They were asked to fill up the houselists with ink and prepare the duplicate and a fairer copy after the completion of the houselisting operations. The instructions for filling up the Houselist were :—

#### Column 1.—Line Number.

Only one digit of the line number has been printed in this column. The line numbers should be continuous for your block. Where the line numbers exceed 9 write the earlier digit (s) yourself.

#### Column 2.—Building Number (Municipal or Local Authority or Census Number, if any).

This refers to the entire structure on the ground. There are, however, high, large or long buildings

along a street or lane which have been partitioned or portions of which have been sold, which have distinct, separate main exit on the road and which belong to separate owners or occupiers or alternatively there are a series of different houses joined each to each by common walls on either side to make the whole look like one building but parts of which have been built at different times and belong to separate owners. Such distinguishable structure, although not separate from each other should be regarded as separate buildings and given separate numbers. Each building should have a separate number. If in big cities a large mansion or building containing several census houses has a well-known name by which it is generally known then the name of the building should also be recorded for convenient reference. If there are more than one structure within an enclosed or open compound belonging to the same person, *e. g.*, the main house, the servants' quarters, the garage, *etc.*, only one building number should be given. If the locality consists of a number of streets in a village, the buildings in the various streets should be numbered continuously and the streets should be taken in uniform order, from North-West to South-East. Experience suggests that the best way of numbering is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial, stopping finally opposite to where the first numbering began. In a city enumeration block, the numbering will have to respect the axis of the street and not any pre-conceived geographical direction like North-West. A building under cons-

truction should also be given a number in the serial. If a new hut or building is constructed between the time when the housenumbering and houselisting have been completed and the census count it should be given a new number beyond the last number of the serial for the village. Arabic numerals should be used for building numbers.

This will facilitate verification by supervisors. In areas *e.g.*, urban, where the buildings are already numbered by the municipal or other authorities, the enumerator may adopt the existing numbers in the Houselist. In such cases, column 2 will carry the established municipal or local authority number which will facilitate identification. Where there are municipal or local authority numbers but there are reasons to believe that the number is incomplete or unsatisfactory, the municipal or local authority number may still be entered in column 2, but at the same time it will be necessary to serially number the buildings afresh for the purposes of census houselist. In that case, the new census serial for buildings will be entered in column 3 and the new census numbers for the buildings will have to be painted on the buildings themselves. In those cases where there are no municipal or local authority numbers in existence, all buildings will have to be serially numbered for the census and column 2 will contain entries of this census serial. This number will have to be repeated in column 3 with sub-numbers for census houses, if any.

**Column 3.—Building Number (Column 2) with sub-numbers for each Census House.**

A census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a *shop-cum-dwelling* or a place of business, workshop, school, *etc.*, with a separate entrance.

If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road or a common staircase or a common courtyard leading to a main gate, they will be considered as separate census houses. If within an enclosed or open compound there are separate buildings then each such building will also be a separate census house. If all the structures within an enclosed compound are together treated as one building then each structure

with a separate entrance should be treated as a separate census house.

The order in which census houses within a building should be numbered should be continuous, preferably clockwise, or in any convenient manner if it is at all difficult to do it clockwise. If a building itself is a census house, then it will have only one number, namely, that of the building. If within a building there are a number of census houses, then each census house will have two sets of numbers, *e. g.*, the number of the building and the sub-number of the census house. The census housenumber should be written after the building number in arabic numerals in brackets such as 2 (2), 3 (2), *etc.* A census house may contain more than one household in which case, each household will have to be denoted by a separate alphabetical sub-number (see instruction for column 11 below).

**Column 4.—Purpose for which census house used, *e. g.*, dwelling, shop, shop-cum-dwelling, business, factory, workshop, school or other institution, jail, hostel, hotel, *etc.***

The actual use to which a census house is put should be written here.

In the case of a factory or workshop 'Factory' should be written for a large factory if registered under the Indian factories Act and 'Workshop' for a small unregistered workshop. A workshop is a place where some kind of production, repair or servicing goes on or where goods or articles are made and sold. Similarly, a shop is a place where articles are sold for cash or for credit. Business houses are those where transactions in money or other articles are taking place *e. g.*, bank, *etc.* But rooms or apartments where professional consultations are held such as by doctors, hakims, pleaders, *etc.*, should be described as 'professional consultation rooms' and not workshops. In the case, however, of a dispensary where, in addition to consultation by a doctor, medicines are prepared and sold, the house should be described as a dispensary. Write also if used for place of worship or congregation or if unoccupied, 'vacant'. If the census house is a shop, business house, bank, *etc.*, but is not a factory or work-

shop as defined above, the name of the proprietor, manager or director should be entered in column 18.

Columns 5 to 8.—If this census house is used as an establishment, workshop or factory.

These columns apply only in cases where the census house is a factory or a workshop, *i. e.*, where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold. If the census house is not used for purposes of a factory or workshop write 'X' in each of the columns 5 to 8.

Column 5.—Name of establishment or proprietor.

Write the name of the establishment in the case of factories of large manufacturing concerns and write the name of the proprietor in the case of small workshops and establishments like confectioneries where no distinct name has been given to them like *Halwai* shop, *etc.* If the census house is not used for the purpose of a factory or workshop put 'X' in each of the columns 5 to 8.

Column 6.—Name of product (s), repair or servicing undertaken.

In this column enter the actual work that is being done in the establishment, factory or workshop, like paper making, shoe making, cycle repairing, motor servicing, *etc.*

Column 7.—Average number of persons employed daily last week (including proprietor or household members, if any).

The total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop, including the owner or proprietor and any of his family members (if working) should be entered. The average number of persons working per day during the week preceding the date of your visit should be entered.

In case more than one product is produced it is not necessary to enquire the number of persons employed in the production of each product. It may

not be possible to get this information in cases where the operations may be composite.

Column 8.—Kind of fuel or power, if machinery is used.

If the factory or workshop uses steam or diesel engine or fuel, *e.g.*, kerosene, soft coke, electricity, water-mill, *etc.*, for running the machinery used for production, servicing or repairs, write what fuel or power is actually used.

Column 9 & 10.—Description of Census House.

Column 9.—Material of wall.

Under this column the material out of which most of the walls of the house are made *i.e.*, grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete or timber should be written. Where a house consists of separate structures each of different materials, the materials out of which the walls of the main bedrooms are made are to be recorded.

Column 10.—Material of roof.

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, *i.e.*, tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, *etc.*, should be written. In the case of a multi-storeyed building the intermediate floor or floors will be the roof of the lower floor.

Column 11.—Sub-number of each Census Household with Census House number (Column 3).

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

There may be one or more households in a census house. Each household should be separately numbered. This can be done by using the alphabets as (A), (B), (C), *etc.* For example, if building No. 2 is also a census house and has three households, the household numbers will be 2(A), 2(B), and 2(C). If building No. 4 has two census houses, the houses will be numbered as 4(1), and 4(2). If within each

house there are respectively 3 and 2 households, then they will be numbered as 4 (1A), 4(1B), 4(1C) and 4(2A), and 4(2B).

**Column 12—Name of Head of household.**

The name of the Head of each household given in column 11 should be written here. The Head of a household, for census purposes, is the person on whom falls the chief responsibility for the maintenance of the household. The name of the person who is actually acknowledged as Head of the household should be recorded. In the case of places like messes, boarding houses, chummeries, *etc.* where people live together with no ties of relationship, the manager or superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the household.

If the census house is used as a sitting place, cattle-shed, *etc.*, write the use to which it is put (and add the name of the owner).

**Column 13 — Number of rooms in census Household.**

If a census house is occupied by one household the enumeration of rooms should be simple.

If a census house consists of a number of households the number of rooms occupied by each household should be entered on each line against the name of the Head of the household. In cases where more than one household occupy a single room or share more than one room in such a way that it is not possible to say the number of rooms occupied by each household the number of rooms should be given together within brackets as common to both the households.

A room should usually have four walls with a door way with a roof overhead and should be wide and long enough for a person to sleep in, *i.e.*, it should be at least 6 feet long. Unenclosed, verandah, kitchen, store, garage, cattle-shed and latrine which are not ordinarily used for living and sleeping

should not be treated as rooms. An enclosed room however, which is used for living, dining, storing and cooking should be regarded as a room.

**Column 14.—Does the household live in own or rented house?**

If the household lives in own house write 'O'. If the household lives in rented house write 'R'.

In the case of public buildings like schools, hospitals, *etc.*, or places of worship, put 'X' in this column.

**Columns 15 to 17.—Number of persons residing in census household on day of visit.**

Write the number of males residing in the household in column 15, the number of females residing in the household in column 16 and the total number of persons in column 17.

**Column 18.—Remarks.**

In this column should be entered any useful or significant information about the building or the census house or the census household that has not been entered in any other column. For example, if the census house is a shop the name of the proprietor or owner should be recorded in this column. If a census house is vacant at the time of houselisting but there is reason to believe that the house will be occupied in the course of the next few days and almost certainly before the census enumeration period, then the word 'Vacant' should be entered in column 4 and a remark should be entered in column 18 to the effect 'likely to be occupied shortly'. Thus, the Remarks Column should be utilised for recording all significant information relating to the building or census house or census household.

Each person engaged in housenumbering of one block will have to make out an abstract at the conclusion of houselisting and housenumbering. This abstract will be in the form shown on next page.

**Total number of Census Households.....**

Number of establishments, workshops or factories	Total number of rooms in all households	Number of persons residing in households		
		Males	Females	Total

**Dated Signature of Enumerator**

17. Apart from the instructions as to how the houselists will be filled up, the enumerators were directed to carry out the housenumbering with kerosene oil mixed with charcoal-dust and start the houselisting and housenumbering from the North-West corner of the block and finish at the the South-East corner in preferably clock-wise movement. After completing the houselisting operation the enumerators were asked to submit the Houselist Abstract.

*The Household Schedule and Census Population Record*

18. The forms of the Household Schedule and the Census Population Record are given in Appendices I & II.

19. The instructions for filling up the Household Schedule were :—

At the top of the Schedule you will find the Location Code. You will have to write the Location Code of the household here. Your supervisor will give you the Code numbers representing your district, tehsil/thana/town, village/ward/block. You should take care to write these three numbers connected together by oblique strokes in between on every household schedule.

When you are visiting each household for enumeration you should write the code number of the household also on the Household Schedule. For purposes of the census a Census House has been defined as a structure or a part of structure, a dwelling, a shop, workshop, factory or place of business or shop-cum-dwelling giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. A household means the entire group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevented them from doing so. In some census houses there may be more than one group of persons, each group with a common mess. In such cases, each group should be regarded as a separate household for purposes of the census and a separate household schedule should be prepared. You should write the household number from the extracts of the Houselist given to you by your

supervisor. If, in any case, you find a census house or a household satisfying the definitions given above has not been numbered you should bring it to the notice of your supervisor and have a separate number given to the house or household and enumerate the household.

At the right hand corner of the Location Code you will find a question "Is this an institution?" with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital, boarding house, etc., you should write the nature of the institution within the rectangle like jail, hospital, etc.

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of household for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. You need not, however, make any elaborate enquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of 'un-related persons living together'. In such a Household the manager or superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head, should be recorded as Head of the household. If in an Institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled. In such cases the full name of the recognised Head of the household should be written.

If the Head of the household is a person who spends the week-days in town and spends the week-ends at home, he should be recorded as Head of household and entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period than the person who is incharge in his absence should be recorded as the Head of the household.

You will find a parallelogram at the right hand side against the Full Name of the head of the household marked "S.C./S.T." If the Head of the household is a member of a Scheduled Caste or a Scheduled Tribe obtaining in your state or in your district you should write S.C. or S.T. as the case may be within the parallelogram. If the Head of the household does not belong to Scheduled Caste or Scheduled Tribe you should put 'X' within the parallelogram.

You should then fill up part of the household schedule relating to Cultivation and Household Industry. Sub-part 'A' relates to Cultivation; sub-part 'B' to Household Industry and sub-part 'C' to Workers at Cultivation or Household Industry.

Sub-part 'A' relating to Cultivation will have to be filled in only where the household cultivates land. (Land includes all land normally used for cultivation purposes including temporary fallows.) Three categories of land are given in items 1(i), 1(ii) and 2. Item 1(i) and 1(ii) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places, owned or held, or taken or given should be made and entered. A number of lines has been provided for this purpose in 1(i) and 1(ii) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation purposes you should ascertain the local name of the right on such land and record in the column relating to 'local name of right on land'. Category 1(i) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, *e.g.*, land held directly from Government under a grant, lease or assignment, (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession, but without the right of transfer and (iii) temporary or conditional leases of any kind with the Government. Category 1(ii) land taken from private persons or institutions for payment in money, kind or share, will include

land (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession but without right of transfer; (iii) held in a variety of tenancies or tenures which may be broadly classified as follows :—

- (a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also);
  - (b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership of the non-resumable area. In other cases he does not possess the right);
  - (c) tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period;
  - (d) tenants holding land on temporary leases who are liable to ejectment; and
  - (e) areas held on conditions of rendering service either to a village community or to Government (this also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and
- (iv) the following :—
- (a) land taken for a fixed amount of money,
  - (b) land taken for a fixed amount of produce,
  - (c) land taken for a share of the produce,
  - (d) land for which money is paid partly in one and partly in any other form mentioned above, and
  - (e) land held free of consideration.

Category 2 land given to private persons for cultivation for payment in money, kind or share will include the classifications mentioned in category 1(ii).

Categories 1(i) and (ii) will include only those plots or parcels of land which are cultivated by the household itself, that is, lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction. But Category 2 will include land in any part of the country whatsoever. You should ascertain the extent of land in each category of local right in acres and record in the column relating to 'area in acres'. You should write the total of separate plots or parcels of land under the same right if they are situated in different places. If it is not possible to ascertain the extent of land in acres you should, if possible, make a conversion from the local measure given to you. Even if this is not possible write the area in local measure giving invariably the name of the measure adopted.

This sub-part will not apply to households which do not possess any land. Thus, it will not apply to households which consist of only agricultural labourers without any land. In such cases put an 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Land under any of the items in sub-part 'A' includes rent-free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged to it before and under right enter 'co-operative farm'. Labour hired by such a co-operative farm should not be entered for this household.

Sub-part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the Head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the Household Industry can be located either at home or within the village. But in an urban area the Household Industry or at least the major part of its work must be located only at home. A House-

hold Industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

The test for a Household Industry is mainly threefold :—

- (a) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.
- (b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.
- (c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house *e.g.*, preparing and dyeing the yarn for weaving or winding into warp and wool or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

The following activities should also be regarded as illustrative of Household Industry. *Biri*-makers who either alone or with help of members of the family roll biris at home, for wages at piece rates, while the contractor supplies the materials. Certain processes like buttoning and handsewing of tailored cloths, dyeing and printing of cloth, are carried out at home by members of the household both at residence and at 'place of work' or where women-folk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of the Industry(ies) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no Household Industry of any sort put an 'X' in each of the places in the right hand corner where the answers will be written and put a bold cross on this sub-part.

Sub-part 'C' relates to Workers in Cultivation or Household Industry.

In the case of households which are engaged only in Cultivation, if the Head of the household is working write I under the column 'Head' and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in whole time employment during last working season or should be in wholetime employment during current working season.

Similarly in the case of households engaged in Household Industry only, if the Head of the household is working write I the column relating to the 'Head', and also ascertain how many male members and female members of the family are working and write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to

'Total' and then ascertain the number of hired workers, if any, and then write the number of hired workers in the appropriate column.

If a household is engaged both in Cultivation and Household Industry ascertain whether the Head is working and write I under the column relating to the Head and also ascertain how many male and female members of the family are working both at Cultivation and the Household Industry and write the numbers in the respective columns. Write the total number of family workers in the column relating to Total. Ascertain the number of hired workers engaged by the family both for Cultivation and Household Industry and write the number in the appropriate column. In a Household engaged both in Household Cultivation and Household Industry, you need not ascertain how many are engaged in Household Cultivation and Household Industry separately.

Even if any of the members of the family working or hired labourers are absent during the period of the census count they should be counted for the purposes of the Household Schedule.

In the case of households engaged in Cultivation only put 'X' in the columns relating to 'Household Industry only' and 'Both in Household Cultivation and Household Industry'. Similarly, in the case of Households engaged in Household Industry put 'X' in the columns relating to Household Cultivation only, and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in Household Cultivation and Household Industry put 'X' in the columns relating to Household Cultivation only and 'Household Industry only'. If a household is not engaged in either Household Cultivation or Household Industry or both put 'X' in all the columns and a bold 'X' on this sub-part.

The test for a worker is whether a person is actually working in Cultivation or Household Industry or supervising or directing work thereon.

After completely filling-up the Household Schedule, the Census Population Record given at the back page of the Household Schedule should be filled up for every household. The required entries of this Record may be entirely copied out from the individual Slips.

**THE INDIVIDUAL SLIP**

20. The form of the Individual Slip is given blow :—

**CONFIDENTIAL****CENSES 1961**

Location Code \_\_\_\_\_

1(a) Name \_\_\_\_\_

1(b) Relationship to Head \_\_\_\_\_ 2 Age last birthday 

3 Marital Status \_\_\_\_\_ 4 (a) Birth-place \_\_\_\_\_

4 (b) Born R/U  4(c) Duration of residence if born elsewhere 

5(a) Nationality \_\_\_\_\_ 5(b) Religion \_\_\_\_\_

6 S.C./S.T. \_\_\_\_\_ 6 Literacy &amp; Education \_\_\_\_\_

7(a) Mother tongue \_\_\_\_\_ 7(b) Any other language(s) \_\_\_\_\_

8 Working as Cultivator \_\_\_\_\_ 9 Working as Agricultural labourer \_\_\_\_\_

10 Working at Household Industry { (a) Nature of Work \_\_\_\_\_  
 (b) Nature of Household Industry \_\_\_\_\_ (c) If Employee 

11 Doing Work Other than 8, 9 or 10 { (a) Nature of Work \_\_\_\_\_  
 (b) Nature of Industry, Profession, Trade or Service \_\_\_\_\_ (c) Class of Worker   
 (d) Name of Establishment \_\_\_\_\_

12 Activity if Not Working 13 Sex 

21. As in the case of the Household Schedule all the Individual Slips of a household will bear the same location code of the household under enumeration. The respective instructions for each of the questions in the Individual Slip are given in the following :—

*Instructions for filling up the Individual Slip*

In each household you should first enumerate the Head of the household followed by other members of the household in the most convenient order and see that none of the persons in the household are left out. Please make repeated enquiries about infants and very young children, for they are liable to be left out of count. Count near relatives first, such as wife, son, daughter-in-law, daughter, son-in-law, grand-children then distant relations and then domestic servants or other employees living in the household, boarders, visitors *etc.*

**Location Code**

Write the Location Code of the household in each slip. For instructions please see Section A above.

**Q. 1(a) Name**

Write the name of the person enumerated. If a woman's name is not given out describe her as 'so-and-so's mother, wife, or daughter'. If a woman does not take the name of a person's husband and that husband's particulars have to be recorded write 'so-and-so's husband'.

For newly born infants who have not yet been given a name write 'Baby' and write 'father's or mother's name'.

**Q. 1 (b) Relationship to the Head of the household**

In the case of the Head of the household write 'Head'. The person who should be treated as the 'Head of the household' has been fully explained in Part A. All relationships in this question should be recorded in respect of that person. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother

(uncle). 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders or employees write 'visitor', 'boarder', or 'employee' as the case may be.

If on the check or revisional round between the 1st and 3rd March the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slips of the dead Head of household will of course, be cancelled.

In the case of places like messes, boarding houses, chummeries, *etc.*, where people live together with no ties of relationship, the manager or superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the household. Other members should be recorded as 'unrelated' in this question.

**Q. 2. Age in completed years last birthday.**

Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, *etc.* You may use any local calendar of such events that may have been prepared for the purpose.

**Q. 3. Marital Status**

For never married	... .. write	NM
Married	... .. write	M
Widowed	... .. write	W
Separated or Divorced	... .. write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been

married, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

**Q. 4(a) birth place.**

1. If born in village or town in which enumerated write PL
2. If born in another village or town of district in which enumerated. write D
3. If born in another district in the State of enumeration. write name of district.
4. If born in another State in India. Write name of district and state if name of district is known : otherwise write name of State.
5. If born in a country outside India e.g., Pakistan or any other country. write name of country.
6. Persons born at sea or in air or in railway carriages or on road transport e.g., buses, etc., should be entered as such.

**Q. 4(b) Whether born in Village or Town.**

1. If born in a village write R
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth. write U

**Q. 4(c) Duration of Residence.**

1. For a person born in village or town or city in, which enumerated. write X

2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration. write the number of completed years this person has been in the village' town/city of enumeration.

(Do not take into account period of temporary absence on leave or holiday or tour or business).

3. If the duration of residence is less than one year write O

If the duration of residence is one year or over write the actual number of completed years of residence.

**Q. 5(a) Nationality.**

1. For Indian nationals write I
2. For other nationals write the nationality in full.

**Q. 5(b) Religion.**

For Hindu	...	...	write	H
Muslim	...	...	write	M
Christian	...	...	write	C
Jain	...	...	write	J
Buddhist	...	...	write	B
Sikh	...	...	write	S

For others write the answers actually returned.

**Q. 5(c) Scheduled Castes and Scheduled Tribes.**

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your District is given elsewhere in these instructions.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his Caste or Tribe by a synonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5 (b). Scheduled Tribes may belong to any religion.

### *I. Illiterate or Literate*

#### **Q. 6. Literacy and Education**

For a person—

1. Who can neither read nor write or.....write O  
can merely read but cannot write  
in any language
2. Who can both read and write .... write L

The test for reading is ability to read any simple letter either in print or in manuscript *i. e.*, if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

### *II. Standard of Education*

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

#### **Q. 7 (a) Mother Tongue**

Write the mother tongue in full including dialect as returned by the person enumerated.

Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

#### **Q. 7 (b) Any other Language (s)**

After recording the mother tongue enquire whether the person knows any other language (s), Indian or foreign, and write the language (s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

#### **Qs. 8 to 11. Working**

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11 in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he

should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, *etc.*, if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cow-dung cakes or grass, *etc.*, or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers, who may be earning an income but who

are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

#### Q. 8. Working as Cultivator

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institution for payment in money, kind or share.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as cultivator in this question.

#### Q. 9. Working as Agricultural Labourer

Write 'AL' for a person working as Agricultural Labourer, *i.e.*, a person who works in another person's land for wages in money, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works. He should have been working as Agricultural Labourer in the last or current cultivating season.

#### Qs. 10 (a) & 10 (b). Household Industry

If a person is working in a Household Industry write (i) the nature of work done by him in the Household Industry against question 10 (a) and (ii) the nature of the Household Industry against

question 10 (b). Otherwise put 'X' in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against 10 (a) and the nature of the Household Industry against 10 (b).

#### Q. 10 (c) If Employee in Household Industry.

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For all others put X.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry.

#### Q. 10 Working at Household Industry

(a) Nature of Work	(b) Nature of Household Industry	(c) If Employee
1 Spinning yarn	Spinning yarn in Ambar Charkha	X
2 Dyeing and printing yarn	Handloom weaving	X
3 Threshing and cleaning grain	Flour making chakki	X
4 Labourer employed for crushing oil	Oil ghani	E.E.
5 Tempering and polishing implements	Blacksmithy making agricultural implements	X
6 Labourer employed for making and firing kiln	Earthenware pottery	E.E.
7 Throwing & Turning pottery	Earthenware pottery	X
8 Making wooden doors and windows	Carpentry	X
9 Filling gold ornaments with lac	Goldsmithy	X
10 Labourer working hosiery machine	Hosiery	E.E.
11 Keeping accounts	Hosiery	X
12 Polishing and scraping metal	Electroplating	X
13 Labourer employed for putting iron hoop on cartwheels	Cartwheelwright	E.E.
14 Repairing of guns	Gunsmithy	X
15 Bee Keeping	Production of honey	X
16 Tending cattle	Livestock raising	X

**Q. 11. Doing work other than 8, 9 or 10.**

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, *etc.*, as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

**Q. 11. (a) Nature of work.**

In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

**Q. 11. (b) Industry, Business, Trade, Profession or Service.**

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work

belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an 'X' is put in Question 11 (a) put an 'X' in this question also.

*Important points to remember in Questions 11 (a) and 11 (b).*

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass *etc.*, should be described fully even if they work part-time. In the case of married or grown-up-women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and 'HW' written in brackets after the full description.

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves :—

Scientists, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. Labourers—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6. Machine Operators—Always state the kind of machine giving its recognised name, if any.

7. Shop-keepers, Retail Dealers, Shop Assistants—If wholly or mainly engaged in selling, write 'Dealer' (if principal) or, Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For shop assistants

and salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. Transport Workers—Describe fully the nature of the transport, *e.g.*, air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, *etc.*

9. Services—For a person engaged in the Defence Services write 'Service of Central Government.'

10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, *etc.*, should be given the department/branch wherever applicable *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, *etc.* The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, *etc.*

11. Domestic Services.—In the case of any private servant *e.g.*, a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hotels, restaurants, boarding houses, institutions, *etc.*, the words hotel, restaurant, *etc.* should be added.

For persons in the employ of Firms carrying on two or more businesses, if the businesses are carried on in separate premises than the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate records of employment, production, *etc.*) then the appropriate business should be quoted. If, however the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. Commerce—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

**Q. 11 (c). Class of worker.**

**For a person who is :—**

1. an Employer, that is, who hires one or more persons in his work described in Q.11(a) write **MR**
2. an Employee, that is, who does his work described in Q.11(a) under others for wages or salary in cash or kind. write **EE**
3. a Single Worker, that is, who is doing his work described in Q.11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives. write **SW**
4. a Family Worker, that is, who is doing his work described in Q.11(a) in own family without wages or salary in cash or kind. write **FW**

**For a person for whom an 'X' is put in Qs.11(a) and 11(b) put an 'X' in this question also.**

**Explanation—**

(i) An Employer is a person who has to employ other persons in order to perform the work entered in Q.11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, *etc.* and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A Single Worker for the purpose of Q.11(c) is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ any body else not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of entire Q.11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q.10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered

factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(d). Name of Establishment.

Describe in detail the name of the factory, workshop, business house, company, shop, *etc.* If a person has no fixed place of work write 'No fixed place of work'.

For a person for whom an 'X' is put in Qs. 11 (a), 11(b) and 11(c) put an 'X' in this question also.

The following examples will illustrate how Qs. 11 (a), to 11 (d) should be filled up for person doing work other than 8, 9 or 10.

Q. 11—Doing work other than 8, 9 or 10.

Q. 11 (a) Nature of Work	Q. 11 (b) Nature of Industry, Profession, Trade or Service	Q. 11 (c) Class of Workers	Q. 11(d). Name of Establishment
1 Cutting trees in forests	Logging in forests	EE	Forest Department of Government
2 Hunting for fur	Hunting	SW	No fixed place of work
3 Gardener in mango orchard	Fruit growing	EE	Master's mango orchard
4 Paid farm labourer	Coffee plantation	EE	Muthuswamy Coffee Estate
5 Travelling Ticket Inspector	Northern Railway	EE	Northern Railway
6 Senior Scientific Officer	Indian Ceramic Institute	EE	Indian Ceramic Institute
7 Foreman	Kiln room in Ceramic Institute	EE	Indian Ceramic Institute

8 Contractor	Supplying gypsum to Fertilizer Factory	MR	Sindri Fertilizer Factory
9 Accountant	Locomotive Factory	EE	Chittaranjan Locomotives
10 Goods porter	Railway Station porter	SW	Delhi Central Railway Station
11 Day labourer	Road digging in Mathura Road	EE	C.P.W.D
12 Labourer	Assisting brick layer in house building	EE	Defence Colony, New Delhi
13 General labourer.	No fixed job	SW	No fixed place of work
14 Machine Operator	Electric transformer in Electric Supply Transformer Station	EE	Delhi Electric Supply Corporation
15 Shop Assistant	Retail shop in stationery stores	FW	Madan Brothers
16 Dealer	Wholesale Stores in grains & cereals	MR	Sahu and Co.
17 Salesman	Retail shop of ready-made garments and hosiery	FW	Dayanand and Sons
18 Sales Manager	Hardware Department Kaka Agrico.	EE	Kaka Agrico
19 Boiler Room Foreman	Indian Iron and Steel Company	EE	Indian Iron and Steel Company, Burnpur
20 Air pilot	Air transport	EE	Indian Airlines Corporation
21 Bus driver	Motor Transport Service	EE	Government Motor Transport Service
22 Manager and Proprietor	Motor Truck goods transport	MR	Prakash Transport Service
23 Radiologist	Surgical Department of Hospital	EE	Medical College, Calcutta
24 Plant Nutritionist	Plant Protection Research	EE	I.C.A.R., Pusa, Delhi
25 Chemist	Sugar Factory	EE	Bimla Sugar Factory
26 Chemist	Pharmaceutical Factory	EE	Akash Chemical and Pharmaceutical Factory

27 Secretary	Administrative Department of Life Insurance Corporation	EE	L.I.C., Delhi
28 Assistant Secretary	Commerce and Industry Department, Madras	EE	Government of Madras State
29 Supervisor	Jewellery Works	FW	Kundan Brothers Jewellers, Jaipur
30 Machinist	Lathe Department in Engineering Works	EE	Hooghly Docking Company
31 Private cook or domestic servant	—	EE	Master's House
32 Cook	Residential Hotel	EE	Ashoka Hotel New Delhi
33 Khansama	Boarding House and Club	EE	XYZ Club
34 Grocer	Retail trade in grocery	SW	Home
35 Chartered Accountant	Steel Production Factory	EE	Bhilai Steel Plant
36 Accountant	Jute Mill	EE	Howrah Jute Mill
37 Cinema Artist	Cinema Company	EE	ABC Cinema Co.
38 Sign Painter	Commercial Sign painting	EE	Rupalekha Company
39 Canvas bag maker	Cement Company	EE	Portland Cement Co.
40 Sharebroker	Broker in tea and jute shares	SW	ABC share exchange
41 Discount broker	Discounting of bills in Business House	MR	ABC Business House Ltd
42 Die Caster	General Engineering Works	EE	Ramachandra Engineering Co.
43 Ochre grinder	Wood Paint Factory	EE	ABC Paint Factory
44 Distillation Plant Operator	Brewery Factory	EE	Solan Breweries
45 Grinder	Chemical Factory	EE	ABC Chemical Factory
46 Cleaner	Steel Rerolling Works	EE	ABC Rerolling Mills
47 Ticket Collector	Cinema House	EE	ABC Cinema

48 Iron moulder	Iron & Steel Foundry	EE	ABC Engineering Works
49 Foreman	Packing Department in oil mill	EE	ABC Oil Mill Company
50 Foreman	Saw Mill in Wagon Factory	EE	ABC Wagon Company
51 Foundry Caster	Aluminium Factory	EE	ABC Aluminium Company
52 Furnaceman	Boiler Shop, Iron Foundry Works	EE	ABC Iron Foundry
53 Mono printer	Printing Works	EE	Govt. Printing Press
54 Brass turner	Small tools production	EE	ABC Small Tools Company
55 Honorary Social Worker	State Social Welfare Board	SW	State Social Welfare Board
56 Member of Parliament	Parliament	SW	Parliament, Delhi
57 Free lance journalist	Writing for newspapers and periodicals	SW	No fixed journal
58 Political Worker	Political Work	SW	Name of party

**Q. 12 Activity, if not working.**

This question will apply to a person **NOT WORKING**.

Write 'X' in the question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11, above.

The following activities should be recorded in the case of persons **NOT WORKING** :—

1. For a full-time student or child attending school who does no other work, such as make articles at home for sale nor even help part-time in his own family cultivation, industry, trade or business. **write ST**
2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business. **write HW**

3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age. **write D**
4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work. **write R**
5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence. **write B**
6. For a convict in jail (an under-trial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution. **write I**

7. For a person who has not been employed before but is seeking employment for the first time. write NE
8. For a person employed before but now out of employment and seeking employment. write UN

**Explanation.—**

If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 to 8.

**Q. 13. Sex.**

Write 'M' for Males, and 'F' for Females. For eunuchs and hermaphrodites, write 'M'.

22. Besides, if there were diploma or degree holders for Scientific or Technical qualification a card for each of such Scientific or Technical Personnel will be left and they would be asked to fill up the card and either to hand over the same during the Revisional Round of the enumerators or post it without affixing any stamp.

**Unique features of 1961 Census.**

23. (1) *Block Maps* : In the previous Censuses block maps were not prepared. But in the 1961 Census the Superintendents of Census Operations had become fully appreciative of the importance of the notional map of each block wherein the plane feature of each block is shown and the house numbers are inserted.

Unfortunately in Manipur such maps could not be prepared. Curiously, the draughtsman of the Superintendent's office had to take a pretty long time even in bringing out correct maps of the Sub-divisions, because dependable maps showing the correct boundaries of the Sub-divisions were not

available. He therefore, could not prepare such notional maps of the Census Blocks. Regarding the use of the services of the supervisors and the enumerators in the preparation of the notional maps it is regrettable to note that the appointment of the enumeration staff was very much delayed and the enumeration staff had a very short time even for attending the training classes for housenumbers and enumeration. Had the block maps been prepared the office of the future Superintendent of Census Operations would have found them much helpful and the National Sample Survey and the Election Department would have found them very useful.

(2) *Uniform Houselists and Housing Tables*: For the first time in the history of the Census of India a uniform houselist has been adopted for the whole of India. As the canvasser method of collecting the Census data has been adopted the houselist was a very useful record. It was preliminary operation preceding the actual census. It facilitated the visit of the enumerators to every house of their respective blocks and it checked the enumerators from making double enumeration.

In the earlier Censuses, India did not have a uniform and exhaustive houselist. Only the minimum information which is required for the Census purpose was collected. The comprehensive houselist, adopted in the 1961 Census will give valuable data for students, statisticians, the Planning Commission, Ministry of Works, Housing and Supply, etc. A duplicate copy of the Houselists of Manipur was prepared so that the duplicate copy may be used by other offices or the Ministry of Works, Housing and Supply. The houselists are bound in circle-wise books.

3. *Household Schedules & Census Population Record* : It is a foregone conclusion that the 1961 Census is more important than the previous Censuses. It has synchronised with the framing of the Five Year Plan and it comes off at such a critical time when it is necessary to find out how many households and what proportion of our population are still anchored to our indigenous economy of agriculture. The required data cannot be adequately collected from the information gathered from each individual. It was therefore decided to collect some essential information for each household in a form

designed as Household Schedule. This kind of information was not collected in the previous Censuses. Two sets of enquiries were incorporated in the Household Schedule. One was on the extent of land for cultivation upon which the interest of the household is vested and the other envisaged the nature of Household Industry or business and the number of months for which the household is engaged. In addition to that the number of persons of a household who were engaged in Household Cultivation and Household Industry was collected. The data collected under the Household Schedule will be of immense value to the economists, statisticians and framers of the Five Year Plans.

At the back of the Household Schedule there was a Census Population Record. In the Census population Record only the names of the members of the household who were enumerated in the household were written with sex, relationship to Head, age, marital status and description of work in the case of the worker. Since economic picture of the household is shown in the Household Schedule the Population Record was written on the back page of the Household Schedule so that the composite information of the household may be kept intact. Further it is more convenient than the broad-sheet size of the National Register of Citizens of the 1951 Census, and as the National Register of Citizens was not written up simultaneously with the individual schedules, discrepancies which reduced its value, crept in.

4. *Economic Tables:* In the Economic Tables, the urban population is divided into workers and non-workers. In the past Censuses the population was not divided into workers and non-workers. Nor was the population of workers and non-workers divided into urban and rural. On the other hand, the population was divided under eight broad livelihood classes and sub-classes. But in the 1961 Census the workers and the non-workers are separately shown. Further, it was also proposed to distinguish the dependents and non-workers. Detailed information on (a) full-time students doing no other work, (b) house-wives and other adult females who do domestic duties but no other work, (c) infants and other dependants who do not work (d) beggars, vagrants, independent women without indication of source of income and others of unspecified source of existence,

(f) inmates of penal, mental and charitable institutions, (g) persons seeking employment for the first time and (h) persons employed before and now out of employment, but seeking job was collected. These eight categories were further sub-divided into sex and broad age-groups. In the case of categories (g) and (h) the classification by educational standards also is shown so that the potential manpower may be assessed for reference in planning. Apart from the classification of the industrial population into workers and non-workers, the same classification for agricultural population also is made. This will give valuable information to the planners.

5. *Industrial and Occupational Classification as distinct from classification of Livelihood:* The eight livelihood classes which were adopted in the 1951 Census were as follows :—

#### *Agricultural Classes*

- I Cultivators of land wholly or mainly owned ; and their dependants;
- II Cultivators of land wholly or mainly un-owned; and their dependants;
- III Cultivating labourers: and their dependants;
- IV Non-cultivating owners of land; agricultural rent receivers; and their dependants.

#### *Non-Agricultural Classes (including dependants)*

- V Production other than cultivation;
- VI Commerce;
- VII Transport;
- VIII Other Services and Miscellaneous Sources.

The Industrial classification which is adopted in the 1961 Census is the following :—

- I As Cultivator;
- II As Agricultural Labourer;
- III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities;
- IV At Household Industry;

- V In Manufacturing other than Household Industry;
- VI In Construction;
- VII In Trade and Commerce;
- VIII In Transport, Storage and Communications;
- IX In Other Services.

The individual occupations were grouped in accordance with the "National Classification of Occupations" codified by the Government of India, Ministry of Labour and Employment and the non-workers were clubbed together for being shown separately.

As has been said in the section dealing with Economic Tables the 1951 Census sought to ascertain the "economic status" and the "means of livelihood" of every person. From this classification it is difficult to assess the proportions of the self-supporting, earning population to non-earning dependent population. It followed one single system of economic classification. That classification was of course appropriate for the then undeveloped industrial economy of India.

There was a broad classification of the population into 'workers' and 'non-workers'. The classifications have got two-fold purpose—(a) classification for the individual's traditional occupation, and (b) classification for the industry in which the individual is engaged. This is highly needed at this critical stage of India's industrial development. The planners can work out the co-relation between persons engaged in cultivation or agricultural labour and in household industry or business undertaken as a supplementary source of income.

6. *Migration Tables:* With the advancement of the industrialisation of India the population has become more mobile from year to year. It is therefore important to study the problem of short-term migration from one area to another and of rural/urban migration. In the past Censuses the migration trend of the population was examined with a bias towards the birth-place. In the 1961 Census new migration-questions have been designed and new

tables have been prepared for the collection of valuable information on the man-power resources of India. The new questionnaire was designed to find out : (a) whether a person was born in a town or a place which is still a village or now considered a town, (b) the number of years the person has been residing at the place of enumeration. Such figures are again split up by sex, broad age-groups of 0-14, 15-34, 35-59 and 60 and over.

7. *Tables for Scheduled Castes and Scheduled Tribes:* The Constitution of India provides for special safeguards for the Scheduled Caste and Scheduled Tribe communities of India. The Government of India is making an all-out effort to accelerate the improvement of the status of these communities through the Five Year Plans. It is therefore necessary to collect as much data as possible in regard to the Scheduled Castes and Scheduled Tribes. Only on the basis of the up-to date data of the communities the Government of India can plan the upliftment of the communities. In the 1951 Census no elaborate data were brought out. Only the number of persons belonging to Scheduled Castes and Scheduled Tribes was distributed under the eight livelihood classes which were adopted in that census. It was contemplated at the beginning of the preparation for the 1961 Census that at this stage of conclusion of the Second Five Year Plan and the beginning of the Third Five Year Plan it would be very useful to compile population figures for individual Scheduled Castes and Scheduled Tribes. New tables showing workers and non-workers according to Industrial Classification, Marital Status under broad age-groups, Educational Standards in urban and rural areas, Religions followed by individual tribes or castes and households engaged in cultivation classified by interest in Land and Size of Land, are tabulated. These were not shown in the 1951 Census.

8. *Age Classification:* In the 1951 Census the age-groups which were adopted for Economic Tables were 0, 1-4, 5-14, 15-24, 25-34, 35-44, 45-54, 55-64, 65-74, 75 and over. It was considered that the 1951 age classification was not suitable for economic consideration. It was also felt that despite the prospective usefulness of the statistics for small age-groups there was the difficulty of accurate age

reporting in some instances. The question of combining age-groups applied particularly to the tabulations on economic characteristics. The broad age-groups 0-14, 15-34, 35-59 and 60 and over, have been adopted, for the Economic Tables. It was considered that the broad age-groups 15-34 and 35-59 generally include persons of working age and this total would be important in connection with development and planning.

9. *Classification by Educational Qualification:* In the 1951 Census the classification by Educational Qualification was not contrived. In the 1961 Census the groups of occupational divisions and the broad age-group were classified into various educational standards ranging from literate with educational standard and primary standard as the two lowest rungs, to degree or diploma. The unemployed also are classified into similar educational standards. This classification by Educational Qualification will furnish very important data as has been

mentioned above for working out potential manpower and available skills for implementation of the Five Year Plans of India. In the previous Censuses the population was divided into 'literate' and 'illiterate' only without showing age-groups.

10. *Classification of non-workers:* In the 1951 Census the livelihood classification did not give the figure of the non-workers. It was therefore not possible to make a correct assessment of the manpower of the country. In the 1961 Census data relating to non-workers have been cross-tabulated for all age-groups and educational standards. The complete separation of the worker-figures from the non-worker-figures will facilitate the planners in chalking out the programmes of the Five Year Plans and the division of the non-worker-figures into broad age-groups and the educational standards also will throw a light on the potential manpower of the country.

**Primary Census Abstract**

**UNION TABLE A-I**  
**FLY-LEAF**

1. There has been no change in the area of the Union Territory of Manipur for the period from 1901 to 1961. Manipur being a one-district State there has been no change in the area of the district as well.

2. In so far as this frontier State of India has been kept as a separate entity even after the States Re-organisation in 1956, there has been no tangible effect of the States Re-organisation apart from the fact that it has been changed from a Part 'C' State into a Union Territory with a Chief Commissioner as the Head of the Administration.

3. The area of the Union Territory of Manipur is 8,628 square miles according to the Surveyor-General of India. The director of Land Records has no separate figure. In fact there is no well organised and effective office of the Director of Land Records and Surveys in Manipur as they have in the Major States of India.

4. In order to cater to administrative needs of a local nature, there have been some minor changes and adjustments in the territorial jurisdiction and the constitution of the sub-divisions. For instance, at the time of the 1951 Census, there were six Sub-divisions in Manipur, viz., (1) Sadar Sub-division comprising (a) Imphal West Tehsil, (b) Imphal East Tehsil and (c) Sadar Hills Circle including Mao; (2) Thoubal Sub-division comprising (a) Thoubal Tehsil, (b) Bishenpur Tehsil and (c) Tengnoupal Circle; (3) Ukhrul Sub-division; (4) Tamenglong Sub-division; (5) Churachandpur Sub-division and (6) Jiribam Sub-division. In the course of the last decade, the four valley tehsils of Imphal West, Imphal East, Thoubal and Bishenpur have been upgraded to the status of Sub-divisions while Tengnoupal and Sadar Hills and Mao have been created into two separate Sub-divisions. As a result Manipur has now ten Sub-divisions, viz. (1) Churachandpur, (2) Ukhrul, (3) Tamenglong, (4) Jiribam, (5) Tengnoupal, (6) Sadar Hills & Mao, (7) Imphal West, (8) Imphal East, (9) Thoubal, and (10) Bishenpur. It will be seen from the above that there has not been any major change in the territorial jurisdictions of the various administrative units of Manipur. The change has instead been in the status and the pattern of administration of the Units.

5. This paragraph dealing with critical survey of changes in jurisdiction is not necessary in view of the fact that there has been no change in the area of the Union Territory of Manipur.

**6. Rural and Urban Population**

According to Census definition all Corporations, Municipalities and Cantonment Boards are treated as towns irrespective of their population and other characteristics. For other areas, it was decided that the claims should be examined in the light of the following tests : —

- (a) A population of not less than 5,000 persons;
- (b) A density of not less than 1,000 persons per square mile; and
- (c) At least three-fourths of the adult male population of the place should be employed in pursuits other than agriculture.

According to the Registrar General's instructions, in places where the density of population is not as high as prescribed at (b), the remaining two tests should be applied. In the present Census, as in previous Censuses, Imphal has been treated as the only town in Manipur. Though there are places like the Sub-divisional and Tehsil Headquarters which possess urban characteristics, they have failed, at least for the present, to satisfy the test laid down at (a).

Imphal, which is rather a collection of villages grouped round the palace of the ex-ruler of the erstwhile State of Manipur has been treated as a town from the first Census of the State. But in the absence of a clear delimitation of the areas—constituting the town, there appears to have been no rational trends in the variation of its population from Census to Census. Roughly an area which falls within a radius of 3 miles from the centre of the town has been treated as the area constituting the town upto 1941. Then in 1951, for reasons not quite clear, the area of the town was drastically reduced to 2 square miles constituting the small areas covered by the Bazar, the Office and residential areas which were looked after by the then Imphal

**Town Fund.** In the present census, an attempt at rationalization has been made and we have adopted the well-defined area in the charge of the Imphal Municipality as the urban area covered by Imphal Town. The census figures of the population of Imphal Town from 1901 to 1961 are 72,234; 74,650; 80,003; 85,804; 99,716; 2,862 and 67,717.

(ii) The definition or rather the tests adopted in 1961 in regard to the treating of a place as a town has led to the expansion of the area of Imphal Town from 2 square miles in 1951 to 6.75 square miles in 1961. Because of this expansion in area the population has also gone up from 2,862 in 1951 to 67,717 in 1961.

- (a) No urban areas in 1951 have been eliminated in 1961.
- (b) No new urban areas have been listed in 1961.

**7. Tabular statement of progress in the number of towns 1901—1961.**

Total for State	1961	1951	1941	1931	1921	1911	1901
District Manipur	1	1	1	1	1	1	1

8. It appears that there has been no authoritative definition of a village. There is however one definition by convention; it is a Mauza or area declared as a village at the time of settlement or by any competent authority. The most striking features of a village have been its stability in spite of rapid changes in the towns and the dependence of its people on agriculture as their means of livelihood.

**9. Number of inhabited villages 1901-1961.**

Total for	1961	1951	1941	1931	1921	1911	1901
State							
Manipur							
District :	1,866	1,601	1,521	1,372	NA	NA	NA

10. Unfortunately and in spite of our best efforts the figures of inhabited villages in Manipur for the Census years 1901, 1911 and 1921 are not available. It will be seen from the above table that the number of inhabited villages is increasing in Manipur decade after decade. Pressure on homestead land and the attraction of open, habitable stretches of land nearby a village are probably the factors leading to the increase in the number of

villages. With the spread of education and democratic ideas in the hills people in the hills have developed a habit of breaking away from the totalitarian control of the Chief to form a new village. The decade from 1941 to 1951 registered the smallest increase in the number of inhabited villages. This is probably because of the last world war which hit the whole of Manipur directly. People were concerned more with their own safety and sustenance than with establishment of new villages.

11. This statement is not applicable in the case of Manipur as it has not been split up into Mauzas.

12. An area of 4.75 square miles which was included partly in the Imphal East Tehsil and partly in the Imphal West Tehsil in 1951 has now been included in the Imphal Town according to the urban-rural classification adopted in the 1961 Census. The new area constitutes the suburb of Imphal Town and as pointed out earlier, it had been treated as a part of Imphal Town in the various Censuses prior to that of 1951. The present Imphal Town with a population of 67,717 forms a well-defined area, the civic affairs of which are looked after by the Imphal Municipality.

13. *Definition of Census Houses :* For the purpose of the 1961 Census, a Census House has been defined as "a structure, a dwelling, a shop, workshop, factory or place of business, or shop-cum-dwelling, giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance". From the above definition it will be seen that in the present census a very wide definition covering a large variety of structures put to different uses in different parts of the country has been adopted. As a result we get in the various Housing Tables a comprehensive picture of the diverse structures that are found all over the Union Territory.

14. *Definition of Occupied Residential Houses :* While a Census House has been defined to cover a variety of structures used for residential and non-residential purposes, "Occupied Residential Houses", as the expression indicates, are those structures that are used exclusively for residential purposes. They also exclude those structures built for residential

purpose but not occupied by any inmates at the time of the houselisting operations.

15. The following is a statement showing

State/ District	Persons per occupied Census House			No. of females per 1000 males		
	T	R	U	T	R	U
	1	2	3	4	5	6

Union Territory  
of Manipur.

Manipur District.	5	5	6	1,015	1,018	985
----------------------	---	---	---	-------	-------	-----

The above statement is given only upto the district level as no striking peculiarities have been noticed in respect of any lower unit.

16. From the statement it will be clear that density of population per square mile is highest in the Imphal Town. This is because Imphal has been the oldest settlement in the valley and from times immemorial people have been concentrating on a competitive basis around the palace of the Maharajah, which is in the heart of the town. While for the whole of Manipur the number of

"Density per square mile, the number of persons per occupied Census House, the number of females per 1,000 males, and the percentage of rural and urban population to total population."

Percent of rural and urban population to total population			Density per square mile		
T	R	U	T	R	U
7	8	9	10	11	12
100	91.3	8.7	90	83	10,032

females per 1,000 males is 1,015, the corresponding figure in respect of Imphal Town is 985 only. Concentration of unmarried males and males without family in the town for trade, commerce and service accounts for the greater number of males in it. 91.3 per cent of the total population of Manipur live in the rural areas. As for the number of persons per occupied Census House, the average of 5 persons will not show that the average residential house in Manipur is congested though it is not spacious.

### A-I—APPENDIX I

The table will show that while the units, adopted in 1951 of Ukhrul, Mao, Tamenglong, Churachandpur and Tengnoupal have been kept intact as separate Census Charges in 1961 the Sadar and Thoubal Sub-divisions of 1951 have been split up into Imphal West, Imphal East and Sadar Hills Charges; and Bishenpur and Thoubal Charges respectively. The clearly defined Jiribam Sub-division

was treated as a separate Census Charge in 1961 instead of splitting it up, as in 1951, into Jiribam and Jiribam Hills. The present scheme of division of the territory into separate Census units follows the administrative divisions of Manipur and is therefore more convenient from the administrative point of view.

### A-I—APPENDIX II

Except in the case of Imphal town which has undergone a major change in area and consequently in population as a result of changes in rural/urban definition between 1951 and 1961, there has been no noticeable change in other spheres. There are

only two villages in Manipur with a population of over 5,000 persons and both the villages are in the fertile Thoubal division of Manipur which has good natural irrigation facilities.

### A-I—APPENDIX III

As the table will show the houseless population of Manipur as a whole is only 21 and is concentrated in Imphal Town. There are no houseless persons in the rural areas of Manipur. This is a fairly accurate count of the houseless population of Manipur considered against the background of the fact that one comes across rarely, if at all any houseless person in Manipur. The few lunatics one

comes across in the bazars in the rural areas in the day-time go to sleep at night in the house of relatives who take care of them. The 21 persons returned as houseless population of Manipur were found mostly near the Imphal main bazar. They are demented persons who sleep in the pavements during the night beggars and refugees from outside

Manipur who had no roofs over them when they were enumerated.

As regards institutional population, the figures returned for the whole of Manipur is 963. For the purpose of the Present Census, institutions are places like hostels, hotels, hospitals, jails, boarding houses,

etc. Partly because of lack of such institutions and partly because of the conservation of the population in the rural areas there are quite a number of Census Charges in Manipur which have returned no institutional population. Quite naturally concentration of institutional population is highest in Imphal Town.

#### A-I AREA, HOUSES AND POPULATION

##### (NOT FOR THE TABLE)

This is the basic population Table, showing the figures for the Territory and the Sub-divisions. Commencing from the Territorial figures in total-rural-urban it goes on to furnish similar figures for the only town of the Territory and each Sub-division. The area is furnished both in Sq. miles and Sq. kilometres. The table also furnishes the number of villages—Inhabited and Uninhabited, number of towns, number of occupied residential houses and the population total, males and females. In this table as in all other tables, the Sub-divisions have been arranged in order of the Location Code numbers adopted at the 1961 Census and not in alphabetical order.

Besides the main table there are three Appendices to this Table.

In Appendix I adjustment of the areas of Sub-divisions that has taken place since the last Census is shown by giving the area in Sq. miles and Sq. kilometres, gain or loss by each Sub-division.

Though one of the criteria of treating a place as a town is a minimum population of 5,000 and above, there are villages with this minimum population which did not satisfy the other tests prescribed in this connection. Appendix II gives the number of such villages with population and percentage to total rural population of the Territory.

Appendix III shows the Houseless and Institutional population separately with rural-urban break-up.

# **UNION TABLE A-I** **AREA, HOUSES AND POPULATION**

Union Territory	Total Rural Urban	Area in		Population per Sq. mile	No. of Villages		No. of town	No. of occupied residential houses	Population		
		Sq. miles	Sq. kms.		Inhabited	Uninhabited			Persons	Males	Females
1	2	3a	3b	4	5	6	7	8	9	10	11
<b>MANIPUR</b>											
Total		(a) 8,628.0	22,437								
Imphal Town (M)			(b) 22,345.6	90	1,856	48	1	141,858	740,037	387,054	352,979
Rural		(a) 8,621.3	22,321.2	91	1,856	42	1	140,948	712,320	352,937	359,383
Urban		(a) 6.7	17.4	10,012			1	10,910	67,717	34,121	33,596
		(Approximate)									

1. (a) denotes Area figures supplied by Survey of General India.

(b) denotes Area figures supplied by State Surveyors.

2. 'M' stands for Municipality.

3. The Sq. kms. and density figures in column 3 and 4 are based on the area figures for 1971. They are worked out using the area figures corrected upto 2 places of decimals obtained by adding the uncorrected values in the respective units and not using the area figures in the table. In addition to this, the area figures relating to Sq. km. are further rounded to make the Total rounded up on Total tally.

	U	...	...	...	...	...	...	...	...	...	...

NOTE :—(i) Areas of Mao and Sadar Hills are not available separately. Hence their relevant columns are not entered.

(ii) Imphal West Sub-division excludes an Urban Population of P. 51,690, M. 26,385 and F. 25,305 of Imphal Town which have been shown just below Manipur. It also excludes area, No. of Town and number of occupied residential houses.

(a) (iii) Imphal East Sub-division excludes an Urban Population of P. 14,027, M. 7,736 and F. 8,291 of Imphal Town which have been shown just below Manipur. It also excludes area, No. of Town and No. of occupied residential houses.

(iv) The Sq. kms. and density figures in cols. (3b) and (4) respectively of urban areas of Territory Sub-division are worked out using the area figures covered upto 2 places of decimals obtained by adding the areas of Towns in the respective units and not using the area figures given in the table. In addition to this, the area figures relating to Sq. kms. are further adjusted to make the Territory Sub-division totals tally.

(v) (a) Denotes Area figures supplied by Surveyor General, India.

(b) Denotes Area figures supplied by State Surveyor.

vi) 'M' stands for Municipality.

## A-II VARIATION IN POPULATION DURING 60 YEARS

## Fly Leaf

1. This table furnishes the inter-decade variations of population for the period from 1901 to 1961 alongwith the percentages of such variations. In the absence of reliable vital statistics this table is very important as it forms the main source of estimation of decennial population variation.

2 As there has been no change in the area forming the territorial jurisdiction of the Union Territory of Manipur for the period from 1901 to 1961 it is not possible to furnish details of adjustments of population for the said period.

3. Appendix to Table A-II furnishes in detail variations in the areas of a State/District between 1951 and 1961 and the corresponding variations in

population together with adjustments of population in the light of such variations. As the single district Union Territory of Manipur has not undergone any change in area during the decade from 1951 to 1961, details of adjustment of population are not given in respect of the district. But figures representing adjustment of population in respect of Imphal Town which has undergone a major change in area during the decade are furnished in the table to facilitate studies in the growth of urban population of the Union Territory.

4 The following is a statement of percentage variation of population from 1901 to 1961 as well as for the intervening decade in respect of Manipur.

Name of District	1901 to 1961	1951 to 1961	1941 to 1951	1931 to 1941	1921 to 1931	1911 to 1921	1901 to 1911
MANIPUR T	+174.2	+35.0	+12.8	+14.9	+16.0	+10.9	+21.7
R	+235.6	+23.9	+39.4	+14.6	+18.4	+11.9	+28.0
U	-6.3	+2266.1	-97.1	+16.2	+7.3	+7.2	+3.3

5. It will be seen from the above statement that while the four decades from 1911 to 1951 showed a steady but unspectacular rise in the population of Manipur, the decade from 1951 to 1961 has registered a sudden rise with the decade from 1901 to 1911. The sudden rise in the period 1951 to 1961 is attributable to eradication of diseases like malaria, improved medical facilities, migration from neighbouring States and perhaps a slight under-enumeration in 1951. That this percentage of increase which appears to be on the high side is fairly reliable is borne out by the fact that during this decade, the neighbouring State of Assam with its less favourable

climate has also registered a rise in population during the decade 1941 to 1951 is due to the fact that on account of the last war a large number of people moved from the town to the villages in the early part of the decade in search of safety and found it difficult to return to the town even in 1951 for economic reasons. The major change in the area of Imphal town from 2 square miles in 1951 to 6.75 square miles in 1961 accounts for the spectacular, almost fantastic rise in the urban population during the decade.

6. A statement showing changes in the proportion of the sexes for the period from 1901 to 1961 is given below :—

		Total, Rural, Urban (Females per 1,000 males)						
District		1961	1951	1941	1931	1921	1911	1901
MANIPUR	T	1,015	1,036	1,055	1,065	1,041	1,029	1,037
	R	1,018	1,035	1,044	1,048	1,029	1,023	—
	U	985	1,055	1,102	1,137	1,091	1,051	—

7. The above statement shows that during the last sixty years females have always outnumbered the males, except in the case of urban population during the decade 1951—1961. During the period from 1951—1961 however, the male population has developed a tendency to reduce the lead. Save in the case of the decade 1951—1961, there has been

a bigger margin of lead by females in the urban population than in the rural. This is probably because upto the year 1951 when Imphal had few outsiders and limited employment facilities, a large male population of the town moved down to the villages to work during the dry season when Census was taken.

#### **A-II VARIATION IN POPULATION DURING SIXTY YEARS**

##### **Note for the Table**

This table shows the variation in population of Manipur as a whole from 1901 to 1961. The percentage variation is also given from decade to decade. This table forms the main source for

estimation of population in the absence of reliable Vital Statistics. No sex break-up percentage variation is given in this Table.

**STATE TABLE A-II**  
**VARIATION IN POPULATION DURING SIXTY YEARS**

Union Territory	Year	Persons	Decade Variation	Percentage decade variation	Males	Females
1	2	3	4	5	6	7
MANIPUR	1,901	284,465	...	...	139,632	144,833
	1,911	346,222	+61,757	+ 21.71	170,666	175,556
	1,921	384,016	+37,794	+ 10.92	188,119	195,897
	1,931	445,606	+61,590	+ 16.04	215,815	229,791
	1,941	512,069	+66,463	+ 14.92	249,123	262,886
	1951	577,635	+65,566	+ 12.80	283,685	293,950
	1,961	780,037	+202,402	+ 35.04	387,058	392,979

## A-III VILLAGES CLASSIFIED BY POPULATION

### FLY-LEAF

1. An attempt at defining a village which plays one of the most important parts in the Indian economy has been made in the fly-leaf to Table A-I. As the majority of the Indian population live in the villages it is of the utmost importance that we should study trends in the growth and decline of

the rural population of India.

2. The following is a statement of percentage of population living in villages of various population sizes with reference to the total rural population in each district in 1961 :

State	Less than 200	200 to 499	500 to 999	1,000 to 1,999	2,000 to 4,999	5,000 to 9,999	10,000 +
Manipur	200	499	999	1,999	4,999	9,999	+
District	13.8	18.8	20.4	24.1	21.2	1.7	—
Manipur	13.8	18.8	20.4	24.1	21.2	1.7	—

3. It is evident from the above statement that there is no village in Manipur having a population of 10,000 and above. More than sixty five per cent of population live in villages with population ranging from 500 to 4,999 persons. While only a small fraction of the population lives in villages with population of 5,000 and above, those living in small hamlets of under 500 form a little less than one-third of the population. 13.8 per cent of the

population live in villages with less than 200 persons. This is probably because there has been a tendency on the part of the people to establish new villages or migrate from small villages to large ones.

4. The following is a statement of percentage of villages and population by class of village for 1951 and 1961.

*Statistics in respect of earlier Census years are not available.*

	Less than 500		500 to 999		1,000 to 1,999	
	Percentage of no. of villages in this class to total no. of villages	Percentage of population in this class to total population	Percentage of no. of villages in this class to total no. of villages	Percentage of population in this class to total population	Percentage of no. of villages in this class to total no. of villages	Percentage of population in this class to total population
Manipur						
1951	80.0	35.8	11.3	21.2	6.1	22.4
1961	79.7	32.6	10.7	20.4	6.8	24.1
	2,000 to 4,999		5,000 to 9,999		10,000+	
	Percentage of no. of villages in this class to total no. of villages	Percentage of population in this class to total population	Percentage of no. of villages in this class to total no. of villages	Percentage of population in this class to total population	Percentage of no. of villages in this class to total no. of villages	Percentage of population in this class to total population
Manipur						
1951	2.4	16.8	0.2	3.8	—	—
1961	2.7	21.2	0.1	1.7	—	—

5. The first impression that one gets from a scrutiny of the above table is that there has been no striking variation between the statistics of the two census years 1951 and 1961, save in the case of villages with the population range of 5,000 to 9,999 and their population. In both the Census years villages with less than 500 persons in them are the most numerous and account for the greatest single

percentage of the population. It will also be seen that as the class of the village goes up there is a decline in the number of villages. This is because in the hills of Manipur which form about ten-elevenths of the total area of Manipur people prefer, partly by habit and tradition and partly through necessity and compulsion of the terrain to live in small well-knit villages.

### A-III VILLAGES CLASSIFIED BY POPULATION

(Note for the Table)

This table shows the total number of villages in each Sub-division in the following population groups :—

I. Villages with less than 2,000 population :

(a) Less than 200

(b) 200—499

(c) 500—999

(d) 1,000—1,999

II. Villages with population 2,000—9,999

III. Villages with a population of 10,000 and above.

The villages which are either uninhabited or wholly included in Urban portion of the Territory are not included in this Table.

A fly-leaf to this Table is also prepared. It gives the Sub-divisionwise total number of villages and separate number of villages of the population groups of less than 500, 500-1,999, 2,000-4,999 and 5,000 and above.

## A-IV TOWNS AND TOWN GROUPS CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901

### FLY-LEAF

1. The term "Town" has been defined in the fly-leaf to A-I. Certain tests were also prescribed to enable Census-takers to determine if a certain area could be classified as a town. As a result there was no difficulty on the part of the Census officials in classifying a place as an urban area or a rural area.

2. For the purpose of 1961 Census, cities and towns were classified into six groups according to their population. The following are the classes of towns with respective populations :

Class I	Class II	Class III	Class IV	Class V	Class VI
10,000 and above	50,000 to 99,999	20,000 to 49,999	10,000 to 19,999	5,000 to 9,999	Less than 5,000

3. As a result of rapid industrialisation during the last decade various places exhibiting urban characteristics and with population dependent on predominantly non-agricultural occupations have sprung up all over the country. The establishment of new administrative headquarters has also brought into

being a number of small places with predominantly urban characteristics. Where two or more of such places are found in localities not far away from one another they are known as town-groups. Though a number of such places have sprung up in Manipur mainly because of the establishment of new administrative headquarters they have not been treated as towns or town-groups on account of the small size of their population.

4. A statement of changes in the classification of town from 1901 to 1961 is given below :—

Manipur	1951	1951	1941	1931	1921	1911	1901
Imphal Town II	VI	II	II	II	II	II	II

The circumstances under which Imphal was degraded, somewhat anomalously, to the status of a Class VI town in 1951 have been explained in the fly-leaf to A-I Tables.

5. The following is a statement of number of towns of each class during 1901 to 1961:—

Manipur :	Imphal	1961	1951	1941	1931	1921	1911	1901
Class I		—	—	—	—	—	—	—
Class II		1	—	1	1	1	1	1
Class III		—	—	—	—	—	—	—
Class IV		—	—	—	—	—	—	—
Class V		—	—	—	—	—	—	—
Class VI		—	1	—	—	—	—	—

6. In view of the peculiar circumstances under which Imphal which has all along been treated as a town in the Censuses previous to that of 1951, has been drastically reduced in size in 1951. This item is not strictly applicable to the case of Imphal in that no new area has been treated as a town or a part thereof for the first time in 1961. An area of 4.75 square miles constituting the urban municipal areas

around the limited town fund area of 1951 has been added in 1961. This step has every justification in the light of the tests prescribed in 1961 to examine the claim of a place to be treated as an urban area. The new places are not and have not been villages in the accepted sense of term. Rather they are urbanized suburbs of Imphal town as it was in 1951.

**7. Note on Appendix to A-IV.**

(a) There is no place in the Union Territory of Manipur which was treated as a town in 1951 but which has been declassified in 1961.

(b) The population of the limited area of Imphal town in 1951, as it then was constituted, was 2,862 persons, and the population of the addi-

tional area of 4.75 square miles treated as an urban area in 1961 would have been 41,480 persons. Had Imphal town of 1961 been treated as an urban area in 1951, its population therefore would have been 44,342 persons as against 67,717 in 1961. The 1961 population of the newly added area of 4.75 square miles is 59,922 persons.

**A-IV TOWNS AND CONSTITUENTS OF TOWN CLASSIFIED BY POPULATION IN 1961 WITH VARIATION SINCE 1901.**

**(Note for the Table)**

This table shows the growth of each town since 1901. As there is only one town in Manipur the question of showing figures for towns and town-groups does not arise; instead the figures are shown for the town with its constituents. This table also furnishes the civic status, area both in Sq. miles and Sq. Kilometres, Population with sex break-up, decade variation in total population and percentage of decade variation.

This Table has two Appendices.

Appendix I has not been prepared for no new towns were added in 1961 and no towns in 1951 were declassified in 1961.

Appendix II to this Table shows the constituent villages of the town with their area figures.

## STATE TABLE A-IV

TOWN (AND CONSTITUENTS OF TOWN) CLASSIFIED BY POPULATION IN  
1961 WITH VARIATION SINCE 1901

## PRIMARY CENSUS ABSTRACT

### IMPHAL

1. In the 1961 Census a comprehensive definition of a Census House has been adopted to cover a large variety of structures. For the purposes of the present Census, a Census House has been defined as a structure or a part of a structure, a dwelling, a shop, workshop, factory or place of business, or shop-cum-dwelling giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance'. Thus, according to the use to which it is put, a Census House may be an occupied Census House which is not necessarily a dwelling, a dwelling which is a structure used exclusively for the purposes of dwelling, shop-cum-dwelling which is a structure used partly as a shop and partly as a dwelling or a workshop-cum-dwelling in the case of which the structure is used partly as a work-shop and partly as a dwelling. A household has been defined to mean 'the entire group of persons who commonly live together in the same Census House and take their meals from a common mess unless the exigencies of work prevent them from doing so'. It follows from this definition that there may be more than one household in a Census House, the criterion being a group of persons with a separate common mess.

2. A statement of percentage of households to number of houses in rural and urban areas, district by district given is below :—

Manipur	Percentage of households to number of houses		
	Total	Rural	Urban
District Manipur	103.8	103.1	112.5

Apart from Imphal Town, the Bishenpur Sub-division has got the highest percentage of households to the number of houses, the percentage being 107.

3. The following is a statement of density of households per square mile in rural & urban areas,

district by district

Manipur	Density of households per square mile.		
	Total	Rural	Urban
Manipur District	17	16	1,818

Apart from Imphal town, the rural portion of the Imphal East Sub-division has the highest density of households per square mile, the density being 160. The sparsely populated Sub-division of Tamenglong has the lowest density, the figure per square mile being 4 only.

4. The backward communities of India which are generally known as "Scheduled Castes" and "Scheduled Tribes" appear to have not been adequately defined anywhere. In the case of both the communities, the criterion of classification seems to be their age-long isolation from the main stream of life led by the more advanced, numerous and representative section of the Indian people and their comparative backwardness. The Scheduled Castes are the backward communities belonging either because of the inferior nature of their occupation or because of rigid caste-distinction in the past have suffered social disabilities and some sort of communal segregation. The term "Tribe" has been admirably described in the 1st Chapter of the "Report of the Scheduled Areas and Scheduled Tribes Commission" in the following words :—

"To the ordinary man the word suggests simple folk living in hills and forests; to the people who are a little better informed, it signifies colourful folk famous for their dance and song; to an administrator it means a group of citizens who are the special responsibility of the President of India; to an anthropologist it indicates a special field for study of a social phenomenon. In their own way all these impressions are correct."

In so far as Parliament may modify the lists of the Scheduled Castes and the Scheduled Tribes under article 341 and 342 of the Constitution the

whole concept of these backward communities is dynamic and not static.

Under the President's Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956, following Scheduled Castes and Scheduled Tribes have been recognised in Manipur:

- SCHEDULED CASTES:**
- 1 Dhupi or Dhopi
  - 2 Lois
  - 3 Muchi or Ravidas
  - 4 Patni
  - 5 Namasudra.
  - 6 Sutradhari
  - 7 Yaithibi
- SCHEDULED TRIBES :**
- 1 Aimol
  - 2 Anal
  - 3 Angami
  - 4 Chiru
  - 5 Chothe
  - 6 Gangte
  - 7 Hmar
  - 8 Kabui
  - 9 Kacha Naga
  - 10 Koirao
  - 11 Koireng
  - 12 Kom
  - 13 Lamgang
  - 14 Any Mizo (Lushai) tribes
  - 15 Maram
  - 16 Maring
  - 17 Mao
  - 18 Monsang
  - 19 Moyon
  - 20 Paite
  - 21 Purum
  - 22 Ralte
  - 23 Sema
  - 24 Simte
  - 25 Sahte
  - 26 Tangkhul
  - 27 Thadou
  - 28 Vaiphui
  - 29 Zou

Houseless persons are those persons who sleep on pavements and in open public places without any

roof over them. In Manipur the small number of houseless persons who were enumerated during the 1961 Census are mostly lunatics and beggars.

Institutional population is made up of persons enumerated in boarding house, Jail, Hospital, Hostel, Hotel and messes and Chummeries, *etc.* They have also been aptly described as "un-related persons living together". The prescribed test to ascertain a person's literacy has been his ability to read and write while a literate person's education had been ascertained by the specific examination he has passed.

5. As per instructions issued by the Registrar General, the following definitions were adopted for persons (a) working and (b) not working in the 1961 Census :

(a) For persons working—

"The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, *etc.*, if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as a worker. A person who has been offered work but has not actually joined should be treated as nonworker. Work includes not only actual work but effective supervision and direction of work.

"Persons under training as apprentices with or without stipend or wages will be regarded as working".

"An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be consi-

dered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling fire-wood or making and selling cow-dung cakes or grass *etc.*, or any such work she should be treated as a worker."

"Persons like beggars, agricultural or non-agricultural, royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working, unless they also work in cultivation, industry, trade, profession, business or commerce.

"A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker."

(b) For persons not working –

Persons engaged in the following activities should be classified in the category of persons "Not working" :

1. A full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business;
2. A person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business.
3. Any dependant, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.
4. A retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend, or any

other person of independent means for securing which he does not have to work and who does no other work.

5. A beggar, vagrant or independent woman without indication of source of income and others of unspecified source of income.
6. A convict in jail (an under trial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution.
7. A person who has not been employed before but is seeking employment for the first time.
8. A person employed before but now out of employment and seeking employment.

*Explanation :* If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5. A retired person who has taken up regular work again should be entered in this question as he would have been entered for his new work.

A person who is not working but has been offered work which he has not joined should be included in item 3. He should not be included in item 7 or 8.

In the present Census, a detailed and comprehensive classification has also been made of the working population into nine categories, viz, (1) Cultivators, (2) Agricultural workers, (3) Workers in Plantations, Forests, Mining and Quarrying, *etc.*, (4) Workers at Household Industry, (5) Workers in Manufacturing, (6) Workers in Constructions, (7) Workers in Trade and Commerce, (8) Workers in Transport, Storage and Communications, and (9) Workers in Services. In the context of the present Third Five Year Plan the country has just launched, it is hoped that the above scheme of classification will prove useful as it will facilitate a detailed study of trends in the growth and decline of the working population of the country falling into various categories.

The following definition of Household Industry

has been adopted.

"Household industry (not on the scale of registered factory) is an industry conducted by the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas."

"Thus, the test for a household industry is mainly threefold :

"(a) Household industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling.

"(b) Household industry should be on the household scale where the workers mainly will be the head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus, in any household industry, members of the household should be in a position to lend a hand in the industry whenever they find time in the course of their daily chores. Household industry cannot, therefore, be on the scale of registered factory, but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

"(c) Location also is important, for proximity decides participation by members of the

household. In a village this participation is possible if the household industry is located at home or within the village because village organisation is such as makes it possible for members to move about freely in the village to look after this work. In urban areas such a free movement is not possible and therefore, for household industry in urban areas we should consider only those industries which are located at home."

6. The following is a statement of percentage of Scheduled Castes and Scheduled Tribes severally to total males and females by rural and urban areas of Manipur district and in the Imphal Town which constitutes the only urban area of Manipur.

Name of Union Territory/Town	Percentage of Scheduled Castes				Percentage of Scheduled Tribes			
	Males		Females		Males		Females	
	Rural	Urban	Rural	Urban	Rural	Urban	Rural	Urban
MANIPUR	1.9	0.3	1.8	0.2	34.2	7.1	34.5	5.2
Imphal Town	-	3.0	-	0.2	-	7.1	-	5.2

7. In the following a statement of percentage of literate and educated persons to total population, males and females by rural and urban areas of the district of Manipur and the Imphal town is given.

Name of Union Territory/Town	Percentage of Literate & Educated Persons			Percentage of Literate and Educated Persons		
	Rural			Urban		
	Total	Males	Females	Total	Males	Females
MANIPUR	23.5	42.7	14.5	50.8	70.3	30.9
Imphal Town	-	-	-	50.8	70.3	30.9

8. The following statement shows distribution of 1,000 persons, males and females of rural and urban areas severally of each district and in cities and town-groups of population 100,000 and over among the workers and non-workers and for each category of worker.

Name of Territory/ Town MANIPUR	Total Population			Total Workers			W O R K E R S																		Non workers		
	P	M	F	P	M	F	I		II		III	IV		V		VI*		VII	VIII		IX		P	M	F		
							M	F	M	F	M	F	M	F	M	F	M	F	M	F	M	F					
T 1000	1000	1000	1000	459	473	447	365	237	3	2	1	19	183	2	1	5	1	14	17	8	—	56	4	541	527	555	
R 1000	1000	1000	1000	464	479	449	398	259	3	3	1	15	169	2	—	4	1	8	13	5	—	43	3	536	521	551	
U 1000	1000	1000	1000	407	410	404	72	—	1	—	1	62	329	8	3	18	—	70	56	39	—	189	16	593	590	596	

9. The following is a statement of Sex ratio (females per 1,000 males) among Total Population, Total workers, Each Category of workers and

among Non-workers in rural and urban areas of each district and in cities and town-groups of population 100,000 and over :—

Name of Territory/Town	Total Population	Total Workers	W o r k e r s									Non- workers.
			I	II	III	IV	V	VI	VII	VIII	IX	
MANIPUR Total	1,015	954	659	841	402	9,858	304	116	1,231	6	75	1,070
Rural	1,018	953	662	858	422	11,773	277	169	1,594	9	71	1,078
Urban	985	971	5	—	—	5,200	363	—	787	3	84	994

The above tables will show that while the population of the Scheduled Castes forms a small, almost negligible fraction of the total population of Manipur, the population of the Scheduled Tribes is nearly one-third of the total population. Judged against the background of the fact that the Scheduled Tribes are scattered all over the hill areas of Manipur which cover nearly ten-elevenths of the total area the population of the Scheduled Tribes is considered very small. The incontrovertible conclusion, therefore, is that the bulk of the total population is concentrated on the Manipur valley. The percentage of literate and educated persons in the urban area is a little less than double the percentage in the rural areas.

The female population in the urban and rural areas have a long way to go to catch up with their male counterparts in the matter of literacy and education.

The statement showing population of workers per 1,000 persons indicates that more than fifty per cent of the population are non-workers and that in an industrially backward place like Manipur there is wastage of manpower on account of lack of employment facilities. Contrary to the common belief that in Manipur women do most of the working, the statement showing the number of female workers per 1,000 males shows that they form less than fifty per cent of the total working population.

### PRIMARY CENSUS ABSTRACT

(Note for the Table)

This presents in consolidated form, particulars relating to the Territory, Sub-division with rural-urban break-up and town. It gives the area in Square miles, occupied houses and households, total population, population of Scheduled Castes and Scheduled Tribes, houseless and institutional population (only in the case of State Primary Census Abstract), literates and educated persons, workers classified into the following nine industrial categories and also Non-workers :—

- 1 Cultivator
- 2 Agricultural Labourer
- 3 Mining, Quarrying, Livestock, Forestry

Fishing, Hunting and Plantation, Orchards and allied activities

- 4 Household Industry
- 5 Manufacturing other than Household Industry
- 6 Construction
- 7 Trade and Commerce
- 8 Transport, Storage and Communication
- 9 Other Services

## PART II-B

### General Economic Tables

## GENERAL ECONOMIC TABLES

This part presents the General Economic Tables of 1961. These tables furnish a variety of data and are more comprehensive than their predecessors. The fundamental point to be borne in mind about the economic tables of 1961 is that, unlike in the previous censuses, when income or economic independence was the test applied for assessing the economy of the country, emphasis has been laid in 1961 on work done and not on income. In the past censuses, economic activity was reckoned in terms of categories like economically independent or economically dependent, semi-dependent, earning dependants or non-earning dependants. Thus in the economic classification adopted in 1951, there were eight livelihood classes which were based mainly on income rather than on work. A significant departure has been made in the census of 1961 by laying stress on work and not on income or economic independence. The result is that all persons who work including family workers who are not in receipt of any income and working children who cannot earn enough for their maintenance, have been brought under the present scheme of classification. Even the non-workers have been classified under eight categories according to the activities pursued by them. This conceptual departure will perhaps afford a more realistic picture of the working force of the country as a whole.

2. There are, in the present census, 17 Economic Tables in 'B' Series as against 6 in 1951. The 'B' Series Tables have been divided into two parts, viz., (i) General Economic Tables (B-I to B-IX) prepared from the data collected in individual slips and (ii) Household Economic Tables (B-X to B-XVII)

prepared on the basis of Household Schedules. The Household Economic Tables which are presented in Part III are an entirely new feature introduced in 1961. They have been prepared from Household Schedules by mechanical tabulation on the basis of 20 per cent sample and furnish various data on the extent of land under cultivation and household industry. Land under cultivation by a household has been divided into three categories according to interest in land, viz., (i) owned or held from Government, (ii) held from private persons or institutions for payment in money, kind or share, and (iii) given to private persons for cultivation for payment in money, kind or share. The tables also present data relating to the nature of Household Industry, period of working of Household Industry and the number of persons engaged in Household Cultivation only or Household Industry only or in both, either as family workers or as hired workers.

3. Another notable feature of the General Tables is the adoption of the systematic classification based on the National Classification of Industries and Occupations adopted by the Government of India. This is considered to be an improvement upon the one adopted in 1951. The present classification divides the economic data into 9 Divisions, 45 Major Groups, 343 Minor Groups of industries and 11 Divisions, 75 Groups and 331 Families of occupations in the place of a conglomeration of 10 Divisions and 88 Sub-divisions of services of 1951. In order to facilitate comparison the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951 are reproduced below :—

### 1961 Industrial Categories

- I As Cultivators;
- II As Agricultural Labourers;
- III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities;
- IV At Household Industry;
- V In Manufacturing other than Household Industry;

### 1951 Means of Livelihood

#### AGRICULTURAL CLASSES

- I Cultivators of land wholly or mainly owned and their dependants;
- II Cultivators of land wholly or mainly unowned and their dependants;
- III Cultivating labourers and their dependants ;
- IV Non-cultivating owners of land, agricultural rent receivers and their dependants

VI In Construction;

VII In Trade and Commerce,

VIII In Transport, Storage and Communications,

IX In Other Services;

X Non-workers

4. The non-workers of 1951 who were known as non-working dependants were classified according to the occupations of the persons on whom they were dependant. In 1961 the non-working population has been distributed, for the first time, over eight types of activities, *viz.*, (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependants including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails, or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time, and (viii) persons employed before but now out of employment and seeking employment.

5. Workers of the 1961 Census, may, therefore, be said to represent the self-supporting persons and earning dependants of 1951 taken together *minus* those in receipt of income without doing any work, such as, rentiers, pensioners, *etc.* Economic activities of persons treated as workers were recorded in Questions 8 to 11 of the individual slip. Entries relating to non-workers were made against Question 12. The following instructions issued to the enumerators on how to fill up Questions 8 to 12 of the individual slip may be helpful in appreciating the Tables—

Qs. 8 to 11 Working—

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions

## NON-AGRICULTURAL CLASSES

Persons (including dependants) who derive their principal means of livelihood from—

V Production other than cultivation;

VI Commerce;

VII Transport,

VIII Other services and miscellaneous sources.

8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an under trial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in question 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, *etc.*, if the person has had some regular work of more than one hour a day through-

out the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, *etc.*, or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in question 11.

After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded, *i.e.*, more than one of the questions 8, 9, 10 or 11,

has been filled up by some work, you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11 *i.e.*, more than two of the questions, 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work *i.e.*, the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work *i.e.*, the work after his principal work which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

*Under Q. 8 :* Cultivation involving ploughing, sowing and harvesting.

1. Production of cereal crops (including Bengal gram), such as rice, wheat, *jowar*, *bajra*, maize ; roots and tubers like potato, yam, beet, *etc.* ; sugar-cane *etc.*

2. Production of pulses, such as *arhar*, *moong*, *masur*, *urd*, *khesari*, other gram.

3. Production of raw jute and kindered fibre crops.

4. Production of raw cotton and kindered fibre crops.

*Under Q. 11 :* Other Field Produce, Plantation Crops.

**(a) Other Field Produce**

1. Production of other crops including vegetables not covered in Q. 8;

2. Production of fruits and nuts in plantations, vines and orchards (like coconut, arecanut, *etc.*);

3. Production of wood, bamboo, cane reeds, thatching grass, *etc.*

4. Production of juice by tapping palms,

5. Production of other agricultural produce (including fruits and nuts not covered by Sl. No. 2 and flowers) not covered above

**(b) Plantation Crops**

1. Production of tea in plantation,

2. Production of coffee in plantation,

3. Production of rubber in plantation,

4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it should go under cultivation).

5. Production of *ganja*, cinchona, opium, poppy, saffron, *etc.*

6. Production of other plantation crops not covered above

**Q. 8 Working as Cultivator**

For a person working as Cultivator write 'C'. For a person not working as Cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government, and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or

keeping orchards or groves or working for plantation like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as Cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as Cultivator in this Question.

**Q. 9 Working as Agricultural Labourer**

Write 'AL' for a person working as Agricultural Labourer, *i.e.*, a person who works in another person's land only as a labourer for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

**Q. 10(a) and 10(b) Household Industry**

If a person is working in a Household Industry write (i) the nature of work done by him in the Household Industry against question 10(a) and (ii) the nature of the Household Industry against question 10(b). Otherwise, put 'X' in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a

registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You

should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10(a) and the nature of the Household Industry against 10(b).

#### Q. 10(c) If Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write 'EE'. For all others put 'X'.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at Household Industry :

#### Q. 10 Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee
1 Spinning yarn	Spinning yarn on <i>Ambar Charkha</i>	X
2 Dyeing and printing yarn	Handloom weaving	X
3 Threshing and cleaning grain	Flour making <i>chakki</i>	X
4 Labourer employed for crushing oil	Oil <i>ghmi</i>	EE
5 Tempering and polishing implements	Blacksmithy making agricultural implements	X
6 Labourer employed for making and firing kiln	Earthenware pottery	EE
7 Throwing and turning pottery	Earthenware pottery	X
8 Making wooden doors and windows	Carpentry	X
9 Filling gold ornaments with lac	Goldsmithy	X
10 Labourer working on hosiery machine	Hosiery	EE
11 Keeping accounts	Hosiery	X
12 Polishing and scraping metal	Electroplating	X
13 Labourer employed for putting iron hoop on cartwheels	Cartwheelwright	EE
14 Repairing of guns	Gunsmithy	X
15 Bee Keeping	Production of honey	X
16 Tending cattle	Livestock raising	X

### Q. 11 Doing Work other than 8, 9 or 10

If a worker is not working as a Cultivator or as an Agricultural Labourer or at any Household Industry write the actual work he is doing. If a person is working as a Cultivator or as an Agricultural Labourer or at Household Industry and also does some other work (including dairying or live-stock raising, orchard or plantation *etc.*, as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

#### Q. 11(a) Nature of Work

In the case of persons not working or who work *only* as Cultivator or as Agricultural Labourer or at Household Industry put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

#### Q. 11(b) Nature of Industry, Profession, Trade or Service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In

the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom 'X' is put in question 11(a) put 'X' in this question also.

*Important points to remember in Questions 11(a) and 11(b)*

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, *etc.*, should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and 'HW' written in brackets after the full description.*

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves :—

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. Labourers - For an unskilled labourer usually employed on one sort of work alone, give also the sort of work, done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6. **Machine Operators**—Always state the kind of machine giving its recognized name, if any.

7. **Shop-keeper, Retail Dealers, Shop Assistant**—

If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. **Transport Workers**—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. **Services**—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable e.g., 'Sales Manager' or a 'Manager' of Hardware Department, 'Machine Shop Foreman' or 'Boiler Room Foreman', etc. The following terms are insufficient by themselves :

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. **Domestic Services**—In the case of any private servant e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hostel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) than the appropriate business

should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. **Commerce**—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

#### Q. 11 (c) Class of worker

For a person who is :

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11(a) write **MR**
2. an *Employee*, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind. write **EE**
3. a *Single Worker*, that is, who is doing his work described in Q. 11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives. write **SW**
4. a *Family Worker*, that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind. write **FW**

For a person for whom 'X' is put in Qs. 11(a) and 11(b) put 'X' in this question also.

*Explanation:* -

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power

to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents *etc.*, and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11(c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single-Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and is a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as *Single Worker*.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11, such

an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

#### Q. 11(d) Name of Establishment

Describe in detail the name of the factory, workshop, business house, company, shop, *etc.* If a person has no fixed place of work, write 'No fixed place or work'.

For a person for whom 'X' is put in Qs. 11(a), 11(b) and 11(c) put 'X' in this question also.

The following examples will illustrate how Qs. 11 (a) to 11 (d) should be filled up for persons doing work other than 8, 9 or 10 :

#### Q. 11—Doing work other than 8, 9 or 10

Q. 11(a) Nature of work	Q. 11(b) Nature of Industry, Profession, Trade or Service	Q. 11(c) Class of Worker	Q. 11(d) Name of Establishment
1 Cutting trees in forests	Logging in forests	EE	Forest Dept. of Government
2 Hunting for fur	Hunting	SW	No fixed place of work
3 Gardener in mango orchard	Fruit growing	EE	Master's Mango Orchard
4 Paid farm labourer	Coffee plantation	EE	Muthuswamy Coffee Estate

Q. 11 (a) Nature of Work	Q. 11 (b) Nature of Industry, Profession, Trade or Service	Q. 11(c) Class of Worker	Q. 11 (d) Name of Establishment
5 Travelling Ticket Inspector	Northern Railway	EE	Northern Railway
6 Senior Scientific Officer	Indian Ceramic Institute	EE	Indian Ceramic Institute
7 Foreman	Kiln room in Ceramic Institute	EE	Indian Ceramic Institute
8 Contractor	Supplying gypsum to Fertilizer Factory	MR	Sindri Fertilizer Factory
9 Accountant	Locomotive Factory	EE	Chittaranjan Locomotives
10 Goods Porter	Railway Station Porter	SW	Delhi Central Railway Station
11 Day labourer	Road digging in Mathura Road	EE	C. P. W. D.
12 Labourer	Assisting bricklayer in house building	EE	Defence Colony, New Delhi
13 General Labourer	No fixed job	SW	No fixed place of work
14 Machine Operator	Electric transformer in Electric Supply Transformer Station	EE	Delhi Electric Supply Corporation
15 Shop Assistant	Retail shop in Stationery Stores	FW	Madan Brothers
16 Dealer	Wholesale stores in grains and cereals	MR	Sahu and Co.
17 Salesman	Retail shop of ready made garments and hosiery	FW	Dayanand and Sons
18 Sales Manager	Hardware Department, Kaka Agrico	EE	Kaka Agrico
19 Boiler Room Foreman	Indian Iron and Steel Company	EE	Indian Iron and Steel Company
20 Air Pilot	Air Transport	EE	Indian Airlines Corporation
21 Bus Driver	Motor Transport Service	EE	Government Motor Transport Service
22 Manager and Proprietor	Motor Truck Goods Transport	MR	Prakash Transport Service
23 Radiologist	Surgical Department of Hospital	EE	Medical College, Calcutta
24 Plant Nutritionist	Plant Protection Research	EE	I. C. A. R. Pusa, Delhi
25 Chemist	Sugar Factory	EE	Bimla Sugar Factory

Q. 11 (a) Nature of Work	Q. 11 (b) Nature of Industry, Pro- fession, Trade or Service	Q. 11 (c) Class of Worker	Q. 11 (d) Name of Establishment
26 Chemist	Pharmaceutical Factory	EE	Akash Chemical and Pharma- ceutical Factory
27 Secretary	Administrative Department of Life Insurance Corpora- tion	EL	L I. C. Delhi
28 Assistant Secretary	Commerce and Industry Department, Madras	EF	Government of Madras State

39 Canvas bag maker	Cement Company	LL	Portland Cement Co.
40 Share Broker	Broker in tea and Jute shares	SW	ABC Share Exchange
41 Discount broker	Discounting of bills in business House	MR	ABC Share Exchange
42 Die Caster	General Engineering Works	LL	Ramachandra Engineering Co.
43 Ochre grinder	Wood Paint Factory	EF	ABC Paint Factory
44 Distillation Plant Operator	Brewery Factory	FE	Solan Breweries
45 Grinder	Chemical Factory	FF	ABC Chemical Factory
46 Cleaner	Steel Re-rolling Works	EE	ABC Re-rolling Mills
47 Ticket Collector	Cinema House	EE	ABC Cinema
48 Iron Moulder	Iron & Steel Foundry	EE	ABC Engineering Works
49 Foreman	Packing Department in Oil Mill	EE	ABC Oil Mill Company

Q. 11 (a) Nature of Work	Q. 11 (b) Nature of Industry, Profession, Trade or Service	Q. 11 (c) Class of Worker	Q. 11 (d) Name of Establishment
50 Foreman	Sawmill in wagon factory	FE	ABC Wagon Company
51 Foundry Caster	Aluminium Factory	EE	ABC Aluminium Company
52 Furnace man	Boiler Shop, Iron Foundry Works	EE	ABC Iron Foundry
53 Mono printer	Printing Works	EE	Govt. Printing Press
54 Brass turner	Small tools production	EE	ABC Small Tools Company
55 Honorary Social Worker	State Social Welfare Board	SW	State Social Welfare Board
56 Member of Parliament	Parliament	SW	Parliament, New Delhi
57 Free lance Journalist	Writing for newspapers and periodicals	SW	No fixed journal
58 Political Worker	Political Work	SW	Name of party

#### Q. 12 Activity, if not Working

This question will apply to person NOT WORKING.

Write 'X' in this question for a person who is working that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT WORKING.

1. For a full time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business. write ST
2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business. write HW
3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age. write D

4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work. write R

5. For a beggar, a vagrant or an independent woman without indication of source of income and others of unspecified source of existence. write B

6. For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution. write I

7. For a person who has not been employed before but is seeking employment for the first time. write NE

8. For a person employed before but now out of employment and seeking employment. write UN

*Explanation :—*

If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write 'B' in this question.

A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be

included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

Q. 13 Sex

Write 'M' for Males; and 'F' for Females.

For eunuchs and hermaphrodites write M

**B-I WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS****FLY-LEAF**

This is the basic economic table prepared from the Primary Census Abstract, giving the total population and the nine industrial categories of Workers, and also non-workers. The table is presented down to the level of the Sub-division with total/rural/urban break-up. Workers and non-workers have been classified by broad age groups viz., 0-14, 15-34, 35-59, and 60+. As these age-groups correspond to the stages of life bearing on

the general capacity to work or otherwise, the table will give us a rough idea of the working force of the Territory. These age-groups represent children, young persons, middle aged persons and elderly persons. Those belonging to the age-group 0-14 and 60+ are generally considered to be not in the working force. A detailed classification of non-workers is furnished in Table B-IX.

This table corresponds to Table B-I of 1951.

**B-III PART A—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY  
EDUCATIONAL LEVELS IN *URBAN AREAS ONLY***

**B-III PART B—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY  
EDUCATIONAL LEVELS IN *RURAL AREAS ONLY***

**FLY-LEAF**

This table has been prepared in two parts : Part A for the urban area and Part B for the rural areas. It corresponds to Table D-VII of 1951, when the entire population of the country was classified under educational standards and eight livelihood classes. In the present census, workers under the nine industrial categories and also the non-workers are cross-tabulated by literacy and educational levels. This table will be helpful in assessing the educational qualifications of the available man-power. Illiterate persons also have been classified, in the table, by industrial categories of workers and non-workers. Whereas, in 1951 all degrees and diplomas-technical as well as non-technical were lumped together under one category-degree or diploma-non-technical degrees and diplomas have been distinguished from technical degrees and diplomas in the present census, for urban areas only. Separate information is also furnished for each technical degree or diploma equal to degree or post-graduate degree.

Educated persons holding B. A. or B. Sc., M. A. or M. Sc. or higher degree in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-physics, Geography, *etc.*, have also been treated as technical degree holders and have been classified under 'Others.' The educational levels shown in Part A are (i) Literate (without educational level), (ii) Primary or Junior Basic, (iii) Matriculation or Higher Secondary, (iv) Technical diploma not equal to degree, (v) Non-technical diploma not equal to degree, (vi) University degree or post-graduate degree other than technical degree, and (vii) Technical degree or diploma equal to degree or post-graduate degree. The last educational level has further been divided into (1) Engineering, (2) Medicine, (3) Agriculture, (4) Veterinary and Dairying (5) Technology, (6) Teaching and (7) Others, whereas the educational levels shown in Part B are (i) Literate (without educational level), (ii) Primary or Junior Basic and (iii) Matriculation and above.

**B-IV PART A—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT HOUSEHOLD INDUSTRY**

**B-IV PART B —INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE**

**B-IV PART C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION**

**FLY-LEAF**

This is one of the main economic tables of 1961 showing the industrial classification of workers other than Cultivators (Category I) and Agricultural Labourer (Category II). The connotation of the term 'Industry' as distinguished from 'Occupation' has been explained in the Note. The Table denotes the sector of economic activity in which the worker is engaged.

The Indian Standard Industrial Classification (I S I C) which has been adopted for Classification of Industries in the 1961 Census is reproduced in Annexure I. The Table has been prepared in three parts.

Part A relates to Household Industry only and provides the break-up of workers in Household Industry by sex, into different Divisions and Major Groups of I S I C. Figures are presented for the Total, Rural and Urban population. The figures are compiled from the replies furnished to question 10 of the Individual Slip. The question and the instructions have been reproduced in the Note. The list of common household Industries with their industrial code numbers is reproduced in Annexure II.

Part B of this table gives the industrial classification of worker in Non Household Industry, Trade, Business, Profession or Service and their distribution according to the status of the workers as Employer, Employee, Single Worker or Family Worker. These four statuses of workers have been defined in the Note. Figures are presented for the Total and Urban population. This table is based on the answers to question 11 in the individual slip. The

question and the instructions have been reproduced in the Note.

Part C of this table gives the distribution of workers other than those engaged in cultivation according to the Industrial Division, Major Group of the I S I C by sex for total and urban. In this part data on employment status have not been given but figures for Minor groups of the I S I C have been published.

Statistics are presented in Part C separately for workers in household industry, workers in non-household industry, *etc*. Since household industry is confined to Divisions 0, 1, 2, and 3 the table has a 15 column spread upto Divisions 2 & 3. Thereafter, the table is abridged and limited to total workers only since total workers and workers in non-household industry *etc*, are identical. A statement showing particulars of workers under Minor groups accounting for less than 1% of the workers in the concerned Divisions (less than 0.5% in the case of Minor Groups under Divisions 2 & 3) who have not been included in the main Table is also published as an appendix to Table B-IV Part C.

As pointed out in the Note, an attempt has been made in the 1961 Census to classify workers both according to their industry and their occupation. This table gives the classification according to industry while table B-V which is published next to this table gives the Occupational distribution. In the 1951 Census the classification was made according to Indian Census Economic Classification (I- C E C) which was avowedly a compromise between

the industrial and Occupational approach. Further in 1951 Census classification according to the I.C.E.C. was confined only to a part of the workers who were designated as "Self-supporting persons". No classification was attempted in the case of workers who were designated as "earning dependants" A

direct comparison is, therefore, not possible between the corresponding table of the 1951 Census (Table B-III) and Table B-IV of the 1961 Census, but it is possible to effect a tally between the I.S.I.C. scheme adopted in 1961 and the I.C.E.C. scheme adopted in 1951.

## APPENDIX TO TABLE B-IV PART C.

Minor groups having less than 1% of workers of the respective Divisions and less than 5% in case of minor groups of Division 2 & 3 only have been shown in this appendix.

The following abbreviations have been used.

HI=Household Industry. NHI =Non-household Industry M=Males, F=Females.

## MANIPUR

## B-V OCCUPATIONAL CLASSIFICATION BY SEX OF PERSONS AT WORK OTHER THAN CULTIVATION

### FLY-LEAF

This is a new table in which cross tabulation of industrial categories and occupations has been made for the first time. The 9 industrial categories of workers are reproduced below :

- I As Cultivator
- II As Agricultural Labourer
- III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
- IV At Household Industry
- V In Manufacturing other than Household Industry
- VI In Construction
- VII In Trade and Commerce
- VIII In Transport, Storage and Communications
- IX In Other Services

Separate data are furnished in the Table, in respect of persons engaged in Household Industry and other industrial categories except those relating to Categories I and II. The table has been prepared on the basis of the National Occupational Classification and figures have been shown separately for the Union Territory and each Sub-division and for 'Total' and 'Urban'. Data relating to the rural areas of the Territory can be worked out by subtracting the urban figures from the total.

Occupational families having less than 1% of the workers of the respective Divisions, (Less than 0.5% in case of families of Division 7-8) have not been shown in the table but are given in the Appendix to

this table. Divisions thus affected are marked with an asterisk. (\*) Lines with nil entries have been omitted.

Occupational Families 400-Cultivators (owners), 401-Cultivators (Tenants) and 414-Agricultural Labourers have been excluded from Table B-V. Likewise Occupational Group X0-Workers without occupations and its Families have not been shown in the table.

The list of National Classification of Occupations, from which available figures of the categories presented in this table are drawn up is also reproduced as an Annexure to the fly-leaf of this table and the following changes in the original list of N.C.O. are also made :

- (i) A new occupational family 673- 'Teleprinter Operators' has been added.
- (ii) Occupation 'Teletypist' has been deleted from family 211,
- (iii) Occupational family Code of 073 assigned to 'Actuaries' in the N.C.O. has been assigned to 'Geographers' and the 'Actuaries' joined with Statisticians in family 072,
- (iv) Occupational family code of 063 (Jurists and legal technicians, n.e.c. (including petition writers) has been renumbered as 069, and
- (v) Occupational family 0X4— Geographer has been deleted.

## APPENDIX TO TABLE B-V

Families having less than 1% of workers of the respective Division, (less than 0.5% in case of families of Division 7-8) have been shown in this appendix.

The following abbreviations have been used.

III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities

IV At Household Industry

V In Manufacturing other than Household Industry

VI In Construction

VII In Trade and Commerce

VIII In Transport, Storage and Communications

IX In Other Services

M=Males F=Females

**B-VI Occupational Divisions of Persons at Work other than Cultivation Classified by Sex, Broad Age Groups and Educational Levels in Urban Areas Only**

**Fly-Leaf**

In this table which has been introduced for the first time in 1961, the literate workers under each occupational division are classified by broad age-groups, viz., 0-14, 15-34, 35-59 and 60+. The workers are also classified by occupational divisions. The literate workers are further classified according to educational levels, namely, Literate (without educational level), Primary or Junior Basic, Matriculation or Higher Secondary, Technical Diploma not equal to Degree, Non-technical Diploma not equal to Degree, University Degree or post-graduate Degree other than technical Degree and Technical Degree or Diploma equal to Degree or Post-graduate Degree. The last educational level has further been sub-divided into (i) Engineering, (ii) Medicine, (iii) Agriculture, (iv) Veterinary and Dairying, (v) Technology, (vi) Teaching and (vii) Others. The table thus gives useful information about the occupations which attract educated personnel.

Description of all the occupational divisions is

given below to facilitate appreciation of the table :—

**DIVISIONS**

- 0 Professional, Technical and Related Workers
- 1 Administrative, Executive and Managerial Workers
- 2 Clerical and Related Workers
- 3 Sales Workers
- 4 Farmers, Fishermen, Hunters, Loggers and Related Workers
- 5 Miners, Quarrymen and Related Workers
- 6 Workers in Transport and Communication Occupations
- 7-8 Craftsmen, Production Process Workers and Labourers not elsewhere classified
- 9 Service, Sport and Recreation Workers
- X Workers not classified by Occupation

Division 4 excludes families 400, 401 and 414 and Division X excludes group X0.

## Levels

**URBAN—concl**

[illegible]

**B-VII PART A Persons Working Principally (i) As Cultivators (ii) As Agricultural Labourers or  
(iii) At Household Industry Classified by Sex and by Secondary Work (i) At Household Industry  
(ii) As Cultivator or (iii) As Agricultural Labourer**

**FLY-LEAF**

This part of Table B-VII is prepared in respect of persons whose principal work has been returned as Cultivator, Agricultural Labourer or at Household Industry and whose secondary work is any one of the other two categories. The figures are shown for total, rural and urban areas.

For persons engaged in more than one economic activity the one which occupied most of a person's time was considered to be his principal work. During tabulation the principal work was distinguished by a ring round one of the four economic questions in the individual slip which occupied most of a person's time. The activity which occupied most of a person's time next to his principal work was treated as his secondary work. In respect of persons pursuing only two types of economic activity the one other than the Principal

work was treated as the secondary work. In the case of persons with more than two activities, the secondary work was distinguished by a tick on the right hand side of the question in the individual slip.

This part of the table gives cross-tabulation between principal work and subsidiary work of persons working in Cultivation and Household Industry. It thus shows the extent to which cultivation is supplemented by Household Industry and *vice versa*.

Major Groups of Household Industry where persons having secondary work as Cultivator or Agricultural Labourer are less than 5 per cent of persons having the major group as principal work, have not been shown in the table but are given in the appendix to this table. Divisions thus affected are marked with an asterisk (\*).

## APPENDIX TO TABLE B-VII PART-A

**Major Groups of Household Industry where Persons Having Secondary Work as Cultivators or Agricultural Labourers are less than 5% of Persons Having that Major Group as Principal Work Have Been Shown in this Appendix**

The following abbreviations have been used :—

I=As Cultivators

II—As Agricultural Labourers

M=Males

F=Females

**MANIPUR**

27 Total I (M 60, F 20), II (M 20), Rural I (M 57, F 20), II (M 20), Urban I (M 3), 38 Total I (M 1), Rural I (M 1), 39 Total I (M 17, F 1), Rural I (M 16, F 1), Urban I (M 1).

**IMPHAL WEST SUB-DIVISION**

23 Total I (M 5, F 213), II (F 2), Rural I (F 200), II (F 2), Urban I (M 5, F 13), 27 Total I (M 8, F 2), Rural I (M 6, F 2), Urban I (M 2), 36 Total I (M 4), Rural I (M 4), 39 Total I (M 5), Rural I (M 4), Urban I (M 1).

**IMPHAL EAST SUB-DIVISION**

27 Total I (M 22, F 10), Rural I (M 21, F 10), Urban I (M 1), 38 Total I (M 1), Rural I (M 1).

**BISHENPUR SUB-DIVISION**

28 Total I (M 5, F 2), Rural I (M 5, F 2).

**TAMENGLONG SUB-DIVISION**

23 Total I (F 1), II (F 4), Rural I (F 1), II (F 4), 28 Total I (M 2), Rural I (M 2).

**CHURACHANDPUR SUB-DIVISION**

27 Total I (M 1), Rural I (M 1).

**Note** —There is no urban area in the following sub-divisions .—

(1) Bishenpur, (2) Tamenglong, (3) Churachandpur

**B—Industrial Classification by Sex or Persons Working in Non-Household Industry, Trade,  
Business, Profession or Service Who are also Engaged in Household Industry.**

**FLY-LEAF**

Part B of Table B-VII gives the principal work, viz., the industrial classification of non-household industry by Divisions and Major Groups and also the additional work, viz., household industry by Divisions and Major Groups. Information is furnished for total, rural and urban areas. This part gives data on the basis of cross-tabulation of persons whose principal work is non-household industry, profession, trade, business or service and who also work in Household Industry. The additional work in this part of the table is confined to Household Industry only.

The following extract from the Indian Standard Industrial Classification will help the reader to ascertain the descriptions of Divisions and Major Groups occurring in the table —

**DIVISIONS**

- 0 Agriculture, Livestock, Forestry, Fishing and Hunting
- 1 Mining and Quarrying
- 2 & 3 Manufacturing
- 4 Construction
- 5 Electricity, Gas, Water and Sanitary Services
- 6 Trade and Commerce
- 7 Transport, Storage and Communication
- 8 Services
- 9 Activities not adequately described

**MAJOR GROUPS**

*Division 0—Agriculture, Livestock, Forestry, Fishing & Hunting*

- 00 Field produce and Plantation crops
- 01 Plantation crops
- 02 Forestry and Logging

- 03 Fishing
- 04 Livestock and Hunting

*Division 1—Mining and Quarrying*

- 10 Mining and Quarrying

*Division 2 & 3—Manufacturing*

- 20 Foodstuffs
- 21 Beverages
- 22 Tobacco Products
- 23 Textile-Cotton
- 24 Textile-Jute
- 25 Textile-Wool
- 26 Textile-Silk
- 27 Textile-Miscellaneous
- 28 Manufacturing of wood and wood products
- 29 Paper and paper products
- 30 Printing and publishing
- 31 Leather and leather products
- 32 Rubber, petroleum and coal products
- 33 Chemicals and chemical products
- 34-35 Non-metallic mineral products other than petroleum and coal
- 36 Basic Metals and their products except machinery and transport equipment
- 37 Machinery (all kinds other than Transport) and Electrical equipment.
- 38 Transport Equipment
- 39 Miscellaneous Manufacturing Industries

*Division 4—Construction*

- 40 Construction

***Division 5—Electricity, Gas, Water and Sanitary Services***

- 50 Electricity and gas
- 51 Water supply and sanitary services

***Division 6—Trade and Commerce***

- 60-63 Wholesale Trade
- 64-68 Retail Trade
- 69 Trade and Commerce Miscellaneous

***Division 7—Transport Storage and Communications***

- 70-71 Transport
- 72 Storage and Warehousing
- 73 Communications

***Division 8—Services***

- 80 Public Services
- 81 Educational and Scientific Services
- 82 Medical and Health Services
- 83 Religious and Welfare Services
- 84 Legal Services
- 85 Business Services
- 86 Community Services and Labour Associations
- 87 Recreation Services
- 88 Personal Services
- 89 Services not elsewhere classified

***Division 9—Activities not adequately described***

- 90 Activities unspecified and not adequately described

**B-VII PART B—INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN  
NON-HOUSEHOLD INDUSTRY, TRADE BUSINESS, PROFESSION OR SERVICE  
WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY.**

## TABLE B—VIII

**Part A—Persons Unemployed Aged 15 and above by Sex, Broad Age-Groups and Educational Levels in *Urban Areas only***

**Part B—Persons Unemployed Aged 15 and above by Sex and Educational Levels in *Rural Areas only***

## Fly-Leaf

This is a new table introduced in 1961. This is likely to be useful in assessing the man-power available for employment as it furnishes statistics on educated unemployment in different age-groups.

The table is presented in two parts. Part A relates to urban areas only and shows classification of unemployed persons by educational levels and age-groups. Unemployed persons have been divided into two categories, namely (i) those who are seeking employment for the first time, and (ii) those who were employed before but now out of employment and seeking work. The age-groups shown in category (i) are quinquennial, i.e., 15-19, 20-24, 25-29, 30-34, 35+ and those in category (ii) are 15-19, 20-24, 25-34, 35-44, 45-59 and 60+. These age-groups are further cross-tabulated with different

educational levels, viz., (i) Literate (without educational level), (ii) Primary or Junior Basic, (iii) Matriculation or Higher Secondary, (iv) Technical Diploma not equal to degree, (v) Non-technical diploma not equal to degree, (vi) University degree or post graduate degree other than technical degree, (vii) Technical degree or diploma equal to degree or post graduate degree. The last educational level has been further subdivided into (1) Engineering, (2) Medicine (3) Agriculture, (4) Veterinary and Dairying (5) Technology, (6) Teaching and (7) others.

Part B of the Table furnishes data in respect of the rural areas only. The educational level in this part, are however, confined to Primary or Junior Basic and Matriculation and above only in addition to literate (without educational levels).

## TABLE—B-IX

**Persons not at Work Classified by Sex Broad Age Groups and Type of Activity**

## Fly-Leaf

This important table relating to non-workers has been introduced for the first time in 1961. The non-working population of the country has been divided according to their activities, into eight categories which are based on the recommendations of the United Nations. The table has been prepared separately for total, rural and urban populations, from the information available in Question No 12 of the Individual Slip. The eight categories into which the activities of non-workers have been divided are (i) Full time students, (ii) Household duties, (iii) Dependents, infants and disabled persons, (iv) Retired rentier or independent means, (v) Beggars, vagrants, (vi) Inmates of penal, mental and charitable institutions, (vii) Persons seeking employment for the first time and (viii) Persons employed before but now out of employment and seeking work. The data are cross-tabulated by broad age-groups i.e., 0-14, 15-34, 35-59, and 60 +.

As a person's work has been assessed in terms of his economic activity rather than in terms of his income or economic independence, persons in receipt of income without work who were treated as workers in 1951 are now treated as non-workers. These persons are rentiers, pensioners, beggars and independent women without any indication of work.

Separate data are furnished in this table in respect of housewives who despite being engaged in domestic work, are not classified as economically active. Separate data will also be available of children attending school, which may be of use to the Ministry of Education.

Certain unusual figures especially in regard to (i) full time students and (ii) at Household duties may be seen in this table. The unusual figures of full time students (2 males and 1 female) in the age-group 35-39, which are apparently beyond the age of prosecuting studies, returned in Manipur is mainly due to the fact that some ambitious persons falling within this age-group have decided to better their lot in life by becoming full time students for the time being in the schools and colleges recently established. Recording of an apparently high figure of males, numbering 6,619, in the household duties in comparison with the figures of other States and Union Territories of India is due to the fact that especially in rural areas, there are quite a number of families in which women play the role of bread-earners and go out of the house to work while their male-folk stay back in the house and look after it. This accounts for the high figure of males falling in the category of HW.

## ANNEXURE I

## STANDARD INDUSTRIAL CLASSIFICATION

**This classification groups the industries into**

**9 Divisions**

**45 Major Groups**

**343 Minor Groups**

**The divisions and major groups with their Code numbers are listed below :**

**DIVISIONS**

- 0 Agriculture, Livestock, Forestry, Fishing and Hunting
- 1 Mining and Quarrying
- 2 & 3 Manufacturing
- 4 Construction
- 5 Electricity, Gas, Water and Sanitary Services
- 6 Trade and Commerce
- 7 Transport, Storage and Communications
- 8 Services
- 9 Activities not adequately described

**MAJOR GROUPS**

**Division 0—Agriculture, Livestock, Forestry, Fishing and Hunting**

- 00 Field Produce and plantation crops
- 01 Plantation crops
- 02 Forestry and Logging
- 03 Fishing
- 04 Livestock and Hunting

**Division 1—Mining and Quarrying**

- 10 Mining and Quarrying

**Division 2 and 3—Manufacturing**

- 20 Foodstuffs
- 21 Beverages
- 22 Tobacco Products
- 23 Textile—cotton
- 24 Textile—jute
- 25 Textile—wool
- 26 Textile—silk
- 27 Textile—miscellaneous
- 28 Manufacture of wood and wood products
- 29 Paper and paper products
- 30 Printing and publishing
- 31 Leather and leather products
- 32 Rubber, petroleum and coal products

- 33 Chemicals and chemical products
- 34—35 Non-Metallic mineral products other than petroleum and coal
- 36 Basic Metals and their products except machinery and transport equipment
- 37 Machinery (all kinds other than Transport) and Electrical equipment
- 38 Transport equipment
- 39 Miscellaneous Manufacturing Industries
- Division 4—Construction**
- 40 Construction
- Division 5—Electricity, Gas, Water and Sanitary Services**
- 50 Electricity and gas
- 51 Water supply and sanitary services
- Division 6—Trade and Commerce**
- 60—63 Wholesale Trade
- 64—68 Retail Trade
- 69 Trade and Commerce miscellaneous
- Division 7—Transport, Storage and Communications**
- 70 - 71 Transport
- 72 Storage and warehousing
- 73 Communications
- Division 8—Services**
- 80 Public Services
- 81 Educational and Scientific Services
- 82 Medical and Health Services
- 83 Religious and Welfare Services
- 84 Legal Services
- 85 Business Services
- 86 Community Services and trade and labour associations
- 87 Recreation Services
- 88 Personal Services
- 89 Services (not elsewhere classified)
- Division 9—Activities not adequately described**
- 90 Activities unspecified and not adequately described.

[Classification and Code numbers at the 3 digit level in respect of Minor Groups are shown in the subsequent pages]

## STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
<b>Division 0—Agriculture, Livestock, Forestry Fishing and Hunting</b>			<b>Division 0—Agriculture, Livestock, Forestry Fishing and Hunting—contd.</b>		
00	<i>Field Produce and Plantation Crops—</i>		02	<i>Forestry and Logging—concl'd.</i>	
	Production of cereal crops (including Bengal gram) such as rice, wheat, Jowar, bajra, maize	000		Felling and cutting of trees and transportation of logs ... ..	021
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001		Preparation of timber ... ..	022
	Production of raw jute and kindred fibre crops	002		Production of fuel including charcoal by exploitation of forest ... ..	023
	Production of raw cotton and kindred fibre crops	003		Production of fodder by exploitation of forests ... ..	024
	Production of oilseeds, sugarcane and other cash crops	004		Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests ...	025
	Production of other crops (including vegetables) not covered above	005		Production and gathering of other forest products not covered above	026
	Production of fruits and nuts in plantation, vines and orchards	006	03	<i>Fishing—</i>	
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007		Production of fish by fishing in sea	030
	Production of juice by tapping palms	008		Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries ... ..	031
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009		Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond ... ..	032
01	<i>Plantation Crops—</i>		04	<i>Livestock and Hunting—</i>	
	Production of tea in plantation	010		Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat ... ..	040
	Production of coffee in plantation	011		Rearing of sheep and Production of wool ... ..	041
	Production of rubber in plantation	012		Rearing and production of other animals (mainly for slaughter) such as pig ... ..	042
	Production of ganja, cinchona, opium	014		Production of ducks, hens and other small birds, eggs by rearing and poultry farming ... ..	043
	Production of other plantation crops not covered above	015		Rearing of bees for the production of honey, wax and collection of honey ... ..	044
02	<i>Forestry and Logging—</i>				
	Planting, replanting and conservation of forests	020			

## STANDARD INDUSTRIAL CLASSIFICATION

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
<b>Division 0 — Agriculture, Livestock, Forestry Fishing and Hunting—concl'd.</b>			<b>Division 2 &amp; 3—Manufacturing—concl'd.</b>		
<b>04—Livestock and Hunting—concl'd.</b>			<b>20 Foodstuff—concl'd.</b>		
	Rearing of silk worms and produc- tion of cocoons and raw silk ...	045		Production of indigenous sugar, gur from sugar cane or palm juice and production of candy ...	202
	Rearing of other small animals and insects ... ..	046		Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits ...	203
	Trapping of animals or games pro- pagation .. ..	047		Slaughtering, preservation of meat and fish and canning of fish ...	204
	Production of other animal hus- bandry products such as skin, bone, ivory and teeth .. ..	048		Production of bread, biscuits, cake and other bakery products ...	205
<b>Division 1 — Mining and Quarrying—</b>				Production of butter, ghee, cheese and other dairy products ...	206
<b>10 Mining and Quarrying—</b>				Production of edible fats and oils (other than hydrogenated oil) ...	207
	Mining of coal ... ..	100		Production of hydrogenated oils (Vanaspati) ... ..	208
	Mining of iron ores ... ..	101		Production of other food products such as sweet-meat and condiments, muri, mukri, chira, khoi, cocoa, chocolate, toffee, lozenge . . .	209
	Mining of gold and silver ores ...	102		<b>21 Beverages —</b>	
	Mining of manganese . . .	103		Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Mining of mica ... ..	104		Production of country liquor ...	211
	Mining of other non-ferrous metallic ores ... ..	105		Production of indigenous liquor such as toddy, liquor from mahua, palm juice ... ..	212
	Mining of crude petroleum and natural gas ... ..	106		Production of other liquors not covered above ... ..	213
	Quarrying of stone (including slate), clay, sand, gravel, limestone ...	107		Production of aerated and mineral water ... ..	214
	Mining of chemical earth such as soda ash .. ..	108		Production of ice ... ..	215
	Mining and quarrying of non- metallic products not classified above such as precious and semi- precious stones, asbestos, gypsum, sulphur, asphalt ... ..	109		Production of ice cream ... ..	216
<b>Division 2 &amp; 3 —Manufacturing—</b>				Processing of tea in factories ...	217
<b>20 Foodstuffs—</b>				Processing of coffee in curing works	218
	Production of rice, atta, flour, etc. by milling dehusking and processing of crops and foodgrains ... ..	200		Production of other beverages ...	219
	Production of sugar and syrup from sugarcane in mills ... ..	201

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
<b>Division 2 &amp; 3—Manufacturing—contd.</b>			<b>Division 2 &amp; 3—Manufacturing—contd.</b>		
22	<i>Tobacco Products—</i>		25	<i>Textile—Wool—concl.</i>	
	Manufacture of bidi ... ..	220		Wool spinning and weaving in mill	252
	Manufacture of cigars and cheroots	221		Wool spinning other than in mills	253
	Manufacture of cigarette and			Wool weaving in power loom ...	254
	cigarette tobacco ... ..	222		Wool weaving in handlooms ...	255
	Manufacture of hookah tobacco ...	223		Embroidery and art work in woollen	
	Manufacture of snuff ... ..	224		textile ... ..	256
	Manufacture of jerda and other		26	<i>Textile—Silk—</i>	
	chewing tobacco ... ..	225		Spinning and weaving of silk textile	
	Manufacture of other tobacco			in mill ... ..	260
	products ... ..	226		Dyeing and bleaching of silk ...	261
23	<i>Textile—Cotton—</i>			Spinning of silk other than in mills	262
	Cotton ginning, cleaning, pressing			Weaving of silk textile by power	
	and baling ... ..	230		loom ... ..	263
	Cotton spinning (other than in mills)	231		Weaving of silk textile by handloom	264
	Cotton spinning and weaving in			Printing of silk textile ... ..	265
	mills ... ..	232		Manufacture of silk cordage, rope	
	Cotton dyeing, bleaching ... ..	233		and twine ... ..	266
	Cotton weaving in power looms ...	234	27	<i>Textile—Miscellaneous—</i>	
	Cotton weaving in handlooms ...	235		Manufacture of carpet and all other	
	Manufacturing of khadi textile in			similar type of textile products ...	270
	handlooms ... ..	236		Manufacture of hosiery and other	
	Printing of cotton textile ... ..	237		knitted fabrics and garments ...	271
	Manufacturing of cotton nets ...	238		Embroidery and making of crepe lace	
	Manufacturing of cotton, cordage,			and fringes ... ..	272
	rope and twine ... ..	239		Making of textile garments including	
24	<i>Textile—Jute—</i>			raincoats and headgear ... ..	273
	Jute pressing and baling ... ..	240		Manufacture of made up textile	
	Jute spinning and weaving ... ..	241		goods except wearing apparel such	
	Dyeing and bleaching of jute ...	242		as curtains, pillow cases, bedding	
	Printing of jute textile ... ..	243		materials, mattress, textile bags ...	274
	Manufacture of other products like			Manufacture of waterproof textile	
	rope, cordage from jute and similar			products such as oil cloth, tarpauli	275
	fibre such as hemp, mesta ...	244		Manufacture and recovery of all	
25	<i>Textile—Wool—</i>			types of fibres for purposes of	
	Wool baling and pressing ... ..	250		padding, wadding and upholstery	
	Wool cleaning and processing			filling ... ..	276
	(scouring) ... ..	251		Manufacture of coir and coir pro-	
				ducts ... ..	277

## LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBER

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
<i>Major Group 00</i> <b>Field Produce and Plantation Crops</b>		<i>Major Group 03</i> <b>Fishing</b>	
005.1	Production of Vegetables	030	Production of fish by fishing in sea
005.2	Production of roots etc., not included above	031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries
006.1	Production of fruits and nuts in plantation, vines and orchards	032	Production of pearls, conch, shells, sponges, sea herbs, corals etc., by gathering or lifting from sea, river, pond
006.2	Production of copra (from coconuts)		
007.1	Production of thatching grass		
007.2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)		
008.1	Production of juice (Neera) by tapping coconut trees		
008.2	Production of juice by tapping other palms like date, palmyra n.e.c.		
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above		
<i>Major Group 01</i> <b>Plantation Crops</b>		<i>Major Group 04</i> <b>Livestock and Hunting</b>	
013	Production of tobacco in Plantation	040.1	Rearing of goat for milk and animal power
015.1	Pan Cultivation	040.2	Rearing of buffalo for milk and animal power
015.2	Plantation Crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan	040.3	Rearing of cows for milk and animal power
		040.4	Rearing of camels and other big domestic animals
		040.5	Production and rearing of livestock mainly for milk and animal power n.e.c.
		041.1	Sheep breeding and rearing
		041.2	Production of wool
		042.1	Rearing and production of pigs and goats (mainly for slaughter) n.e.c.
		042.2	Rearing and production of other animals (mainly for slaughter)
		043.1	Poultry keeping and production of eggs
		043.2	Rearing and production of ducks, hens etc. and other small birds e.g. pigeons, parrots peacock, maina etc.
		044.1	Bee keeping for production of honey and wax
		044.2	Collection of wax and honey
		045	Rearing of tassar/eri/mulberry and other silk worms and production of cocoons and raw silk
		046.1	Dog breeding, rearing of rabbits and guinea-pigs
		046.2	Rearing of other small animals and insects n.e.c.
<i>Major Group 02</i> <b>Forestry and Logging</b>			
023.1	Production of charcoal		
023.2	Production of other fuel by exploitation of forests		
024	Production of fodder by exploitation of forests		
025.1	Production of Kathha		
025.2	Production of Lac		
025.3	Production of gum		
025.4	Production of resins, barks, herbs, wild fruits, berries and leaves etc. n.e.c.		
026	Production and gathering of other forest products not covered above

<i>Major</i>	
<b>Group 34-35 Non-metallic Mineral Products other than Petroleum and Coal</b>	
340.1	Making of bricks
340.2	Manufacture of roofing tiles
340.3	Manufacture of other clay products n.e.c.
341.1	Manufacture of cement door frames and sanitary fittings
341.2	Manufacture of cement jali and tiles
341.3	Making of cement statues
341.4	Making of cement products n.e.c.
342.1	Manufacture of lishu
342.2	Manufacture of lime
343.1	Stone carving
343.2	Marble carving
343.3	Granite carving
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n.e.c.
344	Making of chakki, chabla, silaut, latha, jainta, utensils and other articles from stone
345	Manufacture of stone images and toys
346.1	Making of images from soap stone
346.2	Manufacture of images, toys and other articles of plaster of paris
348.1	Mica splitting
348.2	Manufacture of mica products, including mica grinding
350	Making of earthenware such as pottery, etc.
351	Manufacture of crockery
353.1	Making of glass bangles

Industrial code Number	Household Industry
<i>Major</i>	
<b>Groups 34-35 Non-metallic Mineral Products other than Petroleum and Coal</b>	
353.2	Making of glass beads
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
354	Manufacture of Laboratory glass apparatus
355	Making of clay models, earthen images, busts and statues
356.1	Making of earthen toys and artware
356.2	Decorative ceramics
357	Manufacture of glass and glass products except optical and photographic lenses
<i>Major</i>	
<b>Group 36 Basic Metals and their Products except Machinery and Transport Equipment</b>	
360.1	Re-rolling of M. S. Rods
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc. such as billets, blooms, tubes, rods n. e. c.
362	Manufacture of arms and weapons and their repair service
364	Manufacture of iron and steel furniture
365.1	Making of utensils of brass and bell metal
365.2	Making of brassware
365.3	Making of bottom part of hookah from brass and bell metal
365.4	Making of brass and bell metal ornaments
365.5	Making of other brass and bell metal products n.e.c.
366.1	Making of aluminium utensils
366.2	Making of other aluminium products n.e.c.
367.1	Making of tin utensils
367.2	Making of articles from tin sheets
367.3	Copper utensils
367.4	Bronze works including bronze images, medals and articles of alloys

# LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBER

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
<i>Major</i>		<i>Major</i>	
<i>Groups 56</i>		<i>Group 37</i>	
	<b>Basic Metals and their Products except Machinery and Transport Equipment</b>		<b>Machinery (All Kinds other than Transport) and Electrical Equipment</b>
367.5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n.e.c.	377.3	Manufacture of other batteries n.e.c.
368.1	Lacquerware (if on metal)	378	Repairing and servicing of radios
368.2	Nickel plating and electroplating	379.1	Manufacture of domestic electrical appliances
368.3	Engraving, embossing, polishing and welding of metal products	379.2	Repairing and servicing of electrical apparatus, hearts, oven etc.
368.4	Enamelling and galvanizing of metal products	<i>Major</i>	
368.5	Plating and electroplating of metal n.e.c. including silverplating, goldplating, E. P. N. S. etc.	<i>Group 38</i>	
369.1	Manufacture of agriculture implements such as ploughshare, khurpi, kudal etc.		<b>Transport Equipment</b>
369.2	Manufacture of light engineering goods including bolts and screws	382	Manufacture of body of trucks and buses including carpentry and joinery work involved
369.3	Making of iron utensils (e.g., buckets etc.) and articles from iron sheets	384	Repairing and servicing of automobiles
369.4	Making and repairing of locks and trunks	385.1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear etc.
369.5	Cutlery	385.2	Manufacture of rickshaw parts
369.6	Manufacture of pins	386	Manufacture of boats and barges
369.7	Manufacture of scales, weights and measures	388	Repair of cycle and rickshaw
369.8	Foundry Industry (including blacksmithy)	389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, palaki cab, wheelbarrow, handbarrow etc.
369.9	Manufacture of other sundry hardwares such as G. I. pipe, wire net etc., n.e.c.	<i>Major</i>	
<i>Major</i>		<i>Group 39</i>	
<i>Group 37</i>			<b>Miscellaneous Manufacturing Industries</b>
	<b>Machinery (All Kinds other than Transport) and Electrical Equipment</b>	390.1	Repair of spectacles
370	Manufacture of mechanical water pumps, tube well pumps, air pumps etc.	390.2	Manufacture of small photographic equipment
372	Manufacture of small machine tools and machine parts	390.3	Manufacture of optical and photographic equipment n.e.c.
373	Manufacture of sewing machine parts	391	Manufacture of scientific goods
375	Repairing and servicing of fans	392	Repairing and servicing of watches and clocks
376	Manufacture of insulated wires	393.1	Inlay work with ivory and brass
377.1	Manufacture of storage batteries	393.2	Goldsmithy
377.2	Manufacture of charging batteries	393.3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
		393.4	Silver artware, including silver repousse work

# LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBER

Industrial code number	Household Industry
<i>Major</i>	<b>Miscellaneous Manufacturing</b>
<i>Groups 39</i>	<b>Industries—contd.</b>
	on copper (such as in Tanjore) and silver images
393.5	Silver filigree industry
393.6	Manufacture of gold and silver leaves
393.7	Gold covering work (fancy jewellery)
393.8	Bidriware industry
393.9	Manufacture of jewellery, silverwares etc. n.e.c
394	Manufacture, repairing and tuning of musical instruments such as harmonium, table, sitar, bansuri etc.
395.1	Manufacture of chalk pieces
395.2	Making of slate and slate pencil
395.3	Making of rubber stamps
395.4	Manufacture of fountain pen parts
395.5	Manufacture of other stationery articles such as pencils, penholders etc.
396.1	Manufacture of deshi sports goods such as lezzim and dumbbells

Industrial code number	Household Industry
<i>Major</i>	<b>Miscellaneous Manufacturing</b>
<i>Group 39</i>	<b>Industries—concl'd.</b>
396.2	Making of rubber balls and balloons
396.3	Manufacture of other sports goods n.e.c. bats, rackets, balls, etc.
399.1	Making of tikka and cowdung cakes
399.2	Making of beads from conch shells and horn goods
399.3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings etc.
399.4	Making of lac bangles
399.5	Making of buttons (bone, shell ivory)
399.6	Making of gangavan (making of wig from human hair)
399.7	Making of garlands from flowers, camphor, sandal wood shavings seeds and other materials, like beads etc.
399.8	Repair of petromax lights etc.
399.9	Making and repairing of goods n.e.c.

## ANNEXURE III

## NATIONAL CLASSIFICATION OF OCCUPATIONS

## (CODE STRUCTURE)

which classifies occupations into

**331 Occupational Families (three-digit code numbers)****75 Occupational Groups (two-digit code numbers)****11 Occupational Divisions (one-digit code numbers)**  
**Divisions****0 Professional, Technical and Related Workers****1 Administrative, Executive and Managerial Workers****2 Clerical and Related Workers****3 Sales Workers****4 Farmers, Fishermen, Hunters, Loggers and Related Workers****5 Miners, Quarrymen and Related Workers****6 Workers in Transport and Communications Occupations****7-8 Craftsmen, Production Process Workers and Labourers not Elsewhere Classified****9 Service, Sport and Recreation Workers****X Workers not Classifiable by Occupation**  
**Divisions, Groups and Families****0 PROFESSIONAL, TECHNICAL AND RELATED WORKERS****00 Architects, Engineers and Surveyors****000 Architects****001 Civil Engineers (including Overseers)****002 Mechanical Engineers****003 Electrical Engineers****004 Chemical Engineers****005 Metallurgical Engineers****006 Mining Engineers****007 Surveyors****009 Architects, Engineers, and Surveyors, n.e.c.****01 Chemists, Physicists, Geologists and other Physical Scientists****010 Chemists except Pharmaceutical Chemists****011 Pharmaceutical Chemists****012 Physicists****013 Meteorologists****014 Geologists and Geophysicists****015 Mathematicians****019 Chemists, Physicists, Geologists and other Physical Scientists, n.e.c.****02 Biologists, Veterinarians, Agronomists and Related Scientists****020 Biologists and Animal Scientists****021 Veterinarians****022 Silviculturists****023 Agronomists and Agricultural Scientists****029 Biologists, Veterinarians, Agronomists and Related Scientists, n.e.c.****03 Physicians, Surgeons and Dentists****030 Physicians and Surgeons, Allopathic****031 Physicians, Ayurvedic****032 Physicians, Homeopathic****033 Physicians, Others****034 Physiologists****035 Dentists****039 Physicians, Surgeons and Dentists, n.e.c.****04 Nurses, Pharmacists and other Medical and Health Technicians****040 Nurses****041 Midwives and Health Visitors****042 Nursing Attendants and Related Workers****043 Pharmacists and Pharmaceutical Technicians****044 Vaccinators****045 Physiotherapists, Masseurs and Related Technicians****046 Sanitation Technicians****047 Optometrists and Opticians****049 Medical and Health Technicians, n.e.c.**  
**(excluding Laboratory Assistants see 091)****05 Teachers****050 Teachers, University****051 Teachers, Secondary Schools****052 Teachers, Middle and Primary Schools**

- 053 Teachers, Nursery and Kindergarten Schools
- 059 Teachers, n.e.c.
- 06 *Jurists*
  - 060 Judges and Magistrates
  - 061 Legal Practitioners and Advisers
  - 062 Law Assistants
  - 069 Jurists and Legal Technicians, n.e.c. (including Petition Writers)
- 07 *Social Scientists and Related Workers*
  - 070 Economists
  - 071 Accountants and Auditors
  - 072 Statisticians and Actuaries
  - 073 Geographers
  - 074 Psychologists
  - 075 Personnel Specialists
  - 076 Labour and Social Welfare Workers
  - 077 Sociologists and Anthropologists
  - 078 Historians, Archeologists, Political Scientists and Related Workers
  - 079 Social Scientists and Related Workers, n. c.
- 08 *Artists, Writers and Related Workers*
  - 080 Authors
  - 081 Editors, Journalists and Related Workers
  - 082 Translators, Interpreters and Language Specialists
  - 083 Painters, Decorators and Commercial Artists
  - 084 Sculptors and Modellers
  - 085 Actors and Related Workers
  - 086 Musicians and Related Workers
  - 087 Dancers and Related Workers
  - 089 Artists, Writers and Related Workers, n.e.c.
- 09 *Draughtsmen and Science and Engineering Technicians, n.e.c.*
  - 090 Draughtsmen
  - 091 Laboratory Assistants
  - 099 Science and Engineering Technicians, n.e.c.
- 0X *Other Professional, Technical and Related Workers*
  - 0X0 Ordained Religious Workers
  - 0XI Non-ordained Religious Workers
  - 0X2 Astrologers, Palmists and Related Workers
  - 0X3 Librarians, Archivists and Related Workers
  - 0X9 Other Professional, Technical and Related Workers, n.e.c.
- 1 ADMINISTRATIVE, EXECUTIVE AND MANAGERIAL WORKERS
- 10 *Administrators and Executive Officials Government*
  - 100 Administrators and Executive Officials, Central Government
  - 101 Administrators and Executive Officials, State Government
  - 102 Administrators and Executive Officials, Local Bodies
  - 103 Administrators and Executive Officials, Quasi-Government
  - 104 Village Officials
  - 109 Administrators and Executive Officials, Government, n.e.c.
- 11 *Directors and Managers, Wholesale and Retail Trade*
  - 110 Directors and Managers, Wholesale Trade
  - 111 Directors and Managers, Retail Trade
- 12 *Directors, Managers and Working Proprietors Financial Institutions*
  - 120 Directors, Managers and Working Proprietors, Banks
  - 121 Directors, Managers and Working Proprietors, Insurance
  - 129 Directors, Managers and Working Proprietors, Financial Institutions, n.e.c.
- 13 *Directors, Managers and Working Proprietors, Other*
  - 130 Directors, Managers and Working Proprietors, Mining, Quarrying and Well Drilling
  - 131 Directors, Managers and Working Proprietors, Construction
  - 132 Directors, Managers and Working Proprietors, Electricity, Gas, Water and Sanitary
  - 133 Directors, Managers and Working Proprietors, Manufacturing
  - 134 Directors, Managers and Working Proprietors, Transport and Communication

135 Directors, Managers and Working Proprietors, Recreation, Entertainment and Catering Services

136 Directors, Managers and Working Proprietors, Other Services

139 Directors, Managers and Working Proprietors, n.e.c.

## 2 CLERICAL AND RELATED WORKERS

### 20 *Book-Keepers and Cashiers*

200 Book-keepers, Book-keeping and Accounts Clerks

201 Cashiers

202 Ticket Sellers and Ticket Inspectors including Ushers and Ticket Collectors (excluding those on moving transport)

### 21 *Stenographers and Typists*

210 Stenographers

211 Typists

### 22 *Office Machine Operators*

220 Computing Clerks and Calculating Machine Operators

221 Punch Card Machine Operators

229 Office Machine Operators, n.e.c.

### 28 *Clerical Workers, Miscellaneous*

280 General and other Ministerial Assistants and Clerks

289 Miscellaneous Office Workers including Record-keepers, Muharrers, Despatchers, Packers and Binders of Office Papers

### 29 *Unskilled Office Workers*

290 Office Attendants, Ushers, Hall Porters etc. n.e.c.

## 3 SALES WORKERS

### 30 *Working Proprietors, Wholesale and Retail Trade*

300 Working Proprietors, Wholesale Trade

301 Working Proprietors, Retail Trade

### 31 *Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers*

310 Agents and Salesmen, Insurance

311 Agents, Brokers and Salesmen, Real Estate

312 Brokers and Agents, Securities and Shares

313 Auctioneers

314 Valuers and Appraisers

319 Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.

### 32 *Commercial Travellers and Manufacturers' Agents*

320 Commercial Travellers

321 Manufacturers' Agents

329 Commercial Travellers and Manufacturers' Agents, n.e.c.

### 33 *Salesmen, Shop Assistants and Related Workers*

330 Salesmen and Shop Assistants, Wholesale and Retail Trade

331 Hawkers, Pedlars and Street Vendors

339 Salesmen, Shop Assistants and Related Workers, n.e.c.

### 34 *Money-Lenders and Pawn-Brokers*

340 Money-Lenders (including Indigenous Bankers)

341 Pawn-Brokers

## 4 FARMERS, FISHERMEN, HUNTERS, LOGGERS AND RELATED WORKERS

### 40 *Farmers and Farm Managers*

400 Cultivators (Owners)

401 Cultivators (Tenants)

402 Farm Managers, Inspectors and Overseers

403 Planters and Plantation Managers

404 Farmers and Farm Managers, Animals, Birds and Insect Rearing

409 Farmers and Farm Managers, n.e.c.

### 41 *Farm Workers*

410 Farm Machinery Operators

411 Farm Workers, Animals, Birds and Insects Rearing

412 Gardeners (malis)

413 Tappers (Palm, Rubber trees, etc.)

414 Agricultural labourers

415 Plantation labourers

419 Farm Workers, n.e.c.

### 42 *Hunters and Related Workers*

420 Hunters

421 Trappers

429 Hunters and Related Workers, n.e.c.

### 43 *Fishermen and Related Workers*

430 Fishermen, Deep Sea

431 Fishermen, Inland and Coastal Waters

432 Conch and Shell gatherers, Sponge and Pearl Divers

439 Fishermen and Related Workers, n.e.c.

**44 *Loggers and other Forestry Workers***

440 Forest Rangers and Related Workers

441 Harvesters and Gatherers of Forest Products including lac (except logs)

442 Log Fellers and Wood Cutters

443 Charcoal Burners and Forest Product Processers

449 Loggers and Other Forestry Workers, n.e.c.

**5 MINERS, QUARRYMEN AND RELATED WORKERS**

**50 *Miners and Quarrymen***

500 Miners

501 Quarrymen

502 Drillers, Mines and Quarries

503 Shot Firers

509 Miners and Quarrymen, n.e.c.

**51 *Well Drillers and Related Workers***

510 Well Drillers, Petroleum and Gas

511 Well Drillers, other than Petroleum and Gas

**52 *Mineral Treaters***

520 Mineral Treaters

**59 *Miners, Quarrymen and Related Workers n.e.c.***

590 Miners, Quarrymen and Related Workers, n.e.c.

**6 WORKERS IN TRANSPORT AND COMMUNICATION OCCUPATIONS**

**60 *Deck Officers, Engineers Officer and Pilots, Ship***

600 Deck Officers and Pilots, Ship

601 Ship Engineers

**61 *Deck and Engine-Room Ratings (ship), Barge Crews and Boatmen***

610 Deck Ratings (Ship), Barge Crews and Boatmen

611 Engine-Room Ratings. Firemen and Oilers, Ship

**62 *Aircraft Pilots, Navigators and Flight Engineers***

620 Aircraft Pilots

621 Flight Engineers

622 Flight Navigators

**63 *Drivers and Firemen, Railway Engine***

630 Drivers

631 Firemen

**64 *Drivers, Road Transport***

640 Tramcar Drivers

641 Motor Vehicle and Motor Cycle Drivers

642 Cycle Rickshaw Drivers and Rickshaw Pullers

643 Animal Drawn Vehicle Drivers

649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)

**65 *Conductors, Goods and Brakesmen (Railway)***

650 Conductors

651 Guards

652 Brakesmen

**66 *Inspectors, Supervisors Traffic Controllers and Despatchers, Transport***

660 Inspectors, Supervisors, Station Masters and Permanent way Inspectors

661 Traffic Controllers

662 Signalmen and Pointsman

**67 *Telephone, Telegraph and Related Tele-communication Operators***

670 Telephone Operators

671 Telegraphists and Signallers

672 Radio Communication and Wireless Operators

673 Teleprinter Operators

679 Telephone, Telegraph and Related Tele-communication Operators, n.e.c.

**68 *Postmen and Messengers***

680 Postmen

681 Messengers (including Dak Peons)

**69 *Workers in Transport and Communication Occupations, n.e.c.***

690 Ticket Sellers, Ticket Inspectors, including Ushers and Ticket Collectors on Moving Transport

691 Conductors, Road Transport

692 Workers in Transport Occupations, n.e.c.

693 Inspectors, Traffic Controllers and Despatchers, Communication

694 Workers in Communication Occupations, n.e.c.

**7-8 CRAFTSMEN, PRODUCTION PROCESS WORKERS AND LABOURERS, NOT ELSEWHERE CLASSIFIED**

**70 *Spinners, Weavers, Knitters, Dyers and Related Workers***

- 700 Fibre Preparers, Ginners, Cleaners, Scourers, etc.**
- 701 Blow-room Workers and Carders**
- 702 Spinners, Piecers and Winders**
- 703 Warpers and Sizers**
- 704 Drawers and Weavers**
- 705 Pattern Card Preparers**
- 706 Bleachers, Dyers and Finishers (excluding Printers)**
- 707 Knitters and Lace Makers**
- 708 Carpet Makers and Finishers**
- 709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.**

**71 *Tailors, Cutters, Furriers and Related Workers***

- 710 Tailors, Dress Makers and Garment Makers**
- 711 Hat and Head-gear Makers**
- 712 Furriers**
- 713 Upholsterers and Related Workers**
- 714 Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves**
- 715 Sewers, Embroiderers and Darners, Textile and Fur Products**
- 719 Tailors, Cutters, Furriers and Related Workers, n.e.c.**

**72 *Leather Cutters, Lasters and Sewers (except gloves and Garments) and Related Workers***

- 720 Shoe makers and Shoe Repairers**
- 721 Cutters, Lasters, Sewers, Footwear and Related Workers**
- 722 Harness and Saddle Makers**
- 729 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related workers n.e.c.**

**73 *Furnacemen, Rollers, Drawers Moulders and Related Metal Making and Treating Workers***

- 730 Furnacemen, Metal**
- 731 Annealers, Temperers and Related Heat Treaters**

**732 Rolling Mill Operators, Metal**

**733 Blacksmiths, Hammersmiths and Forgemmen**

**734 Moulders and Coremakers**

**735 Metal Drawers and Extruders**

**739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.**

**74 *Precision Instrument Makers, Watch Makers Jewellers and Related Workers***

**740 Precision instrument Makers, Watch and Clock Makers and Repairmen**

**741 Jewellers, Goldsmiths and Silversmiths**

**742 Jewellery Engravers**

**75 *Tool-Makers Machinists, Plumbers Welders, Platers and Related Workers***

**750 Fitter-Machinists, Tool-Makers and Machine Tool Setters**

**751 Machine Tool Operators**

**752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)**

**753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)**

**754 Sheet Metal Workers**

**755 Plumbers and Pipe Fitters**

**756 Welders and Flame Cutters**

**757 Metal Plate and Structural Metal Workers**

**758 Electro-Platers, Dip Platers and Related Workers**

**759 Tool-Makers, Machinists, Plumbers, Welders, Platters and Related Workers, n.e.c. (including Metal-engravers other than printing)**

**76 *Electricians and Related Electrical and Electronics Workers***

**760 Electricians, Electrical Repairmen and Related Electrical Workers**

**761 Electrical and Electronics Fitters**

**762 Mechanics-Repairmen, Radio and Television**

**763 Installers and Repairmen, Telephone and Telegraph**

- 764 Linemen and Cable Jointers
- 769 Electricians and Related Electrical and Electronics Workers, n.e.c.
- 77 *Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers*
- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Body Builders (wood)
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Cooper and Related Workers, n.e.c.
- 78 *Painters and Paper Hangers*
- 780 Painters and Paper Hangers
- 79 *Bricklayers, Plasterers and Construction Workers, n.e.c.*
- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers
- 793 Cement Finishers and Terrazzo and Mosaic Workers
- 794 Hut Builders and Thatchers
- 795 Well Diggers
- 799 Bricklayers, Plasterers and Construction Workers, n.e.c.
- 80 *Compositors, Printers, Engravers, Book-Binders and Related Workers*
- 800 Type-setting Machine Operators
- 801 Compositors
- 802 Proof-readers and Copy Holders
- 803 Printers (Paper)
- 804 Printers (Textile)
- 805 Photo-litho Operators, Photo-lithographers
- 806 Engravers, Etchers and Block-makers (Printing)
- 807 Stereotypers
- 808 Book Binders
- 809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n.e.c.
- 81 *Potters, Kilnmen, Glass and Clay Formers and Related Workers*
- 810 Furnacemen, Kilnmen and Ovenmen
- 811 Potters and Related Clay Formers
- 812 Blowers and Benders, Glass
- 813 Moulders and Pressers, Glass
- 814 Grinders, Cutters, Decorators and Finishers
- 815 Pulverisers and Mixers, Cement, Clay and Other Ceramics
- 819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n.e.c.
- 82 *Millers, Bakers, Brewmasters and Related Food and Beverage Workers*
- 820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
- 821 Crushers and Pressers, Oil Seeds
- 822 Dairy Workers (Non-Farm)
- 823 Khandsari, Sugar and Gur Makers
- 824 Bakers, Confectioners, Candy and Sweet meat Makers
- 825 Makers of Aerated Water and Brewers
- 826 Food Canners, Preservers and Related Workers
- 827 Butchers
- 828 Coffee and Tea Blenders and Related Workers
- 829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.
- 83 *Chemical and Related Process Workers*
- 830 Batch and Continuous Still Operators
- 831 Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes
- 832 Crushers, Millers and Calenderers, Chemical and Related Processes
- 833 Paper Pulp Preparers
- 834 Paper Makers
- 839 Chemical and Related Process Workers, n.e.c.
- 84 *Tobacco Preparers and Products Makers*
- 840 Curers, Graders and Blenders, Tobacco
- 841 Cigarette Machine Operators
- 842 Cheroot, Cigar and Bidi Makers
- 843 Snuff and Zarda Makers
- 849 Tobacco Preparers and Product Makers, n.e.c.
- 85 *Craftsmen and Production Process Workers, n.e.c.*
- 850 Basketry Weavers and Related Workers
- 851 Tyre Builders, Vulcanisers and Related Rubber Products Makers

- 852 **Plastics Products Makers**
- 853 **Tanners, Fellmongers, Pelt Dressers and Related Workers**
- 854 **photographic Dark Room Workers**
- 855 **Makers of Musical Instruments and Related Workers**
- 856 **Paper Products Makers**
- 859 **Craftsmen and Production Process Workers, n.e.c.**
- 86 *Testers, Packers, Sorters and Related Workers*
  - 860 **Checkers, Tasters, Sorters, Weighers and Counters**
  - 861 **Packers, Labellers and Related Workers**
- 87 *Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers*
  - 870 **Operators, Stationary Engines and Related Equipment**
  - 871 **Boilermen and Firemen**
  - 872 **Crane and Hoist Operators**
  - 873 **Riggers and Cable Splicers**
  - 874 **Operators of Earth-moving and Other Construction Machinery, n.e.c.**
  - 875 **Materials-handling Equipment Operators**
  - 876 **Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment**
  - 879 **Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.**
- 89 *Labourers, n.e.c.*
  - 890 **Loaders and Unloaders**
  - 899 **Labourers, n.e.c.**
- 9 **SERVICE, SPORT AND RECREATION WORKERS**
  - 90 *Fire Fighters, Policemen, Guards and Related Workers*
    - 900 **Fire Fighters and Related Workers**
    - 901 **Police Constables, Investigators and Related Workers**
    - 902 **Customs Examiners, Patrollers and Related Workers**
    - 903 **Watchmen and Chowkidars**
    - 909 **Fire Fighters, Policemen, Guards and Related Workers, n.e.c.**
  - 91 *House keepers, Cooks, Maids and Related Workers*
    - 910 **House Keepers, Matrons, Stewards (Domestic and Institutional)**
    - 911 **Cooks, Cook-Bearers (Domestic and Institutional)**
    - 912 **Butlers, Bearers, Waiters, Maids and Other Servants (Domestic)**
    - 913 **Ayas, Nurse-maids**

  - X9 *Workers not Reporting Occupation*
    - X90 **Workers not reporting occupation**

## CULTURAL AND MIGRATION TABLES

### C—SOCIAL AND CULTURAL TABLES

The social and cultural tables of 1961 are based on the corresponding tables of 1951 Census. In the present census Table C-I Composition of Sample Households by Relationship to Head of Family classified by Size of Land cultivated has been prepared from household schedules on the basis of 20 per cent sample, as against 10 per cent sample in 1951. All the other tables have been prepared on full count from the individual slips. The age tables namely, C-II to C-V of 1951 were prepared on the basis of 10 per cent sample taken out during the initial stage of sorting. For the age tables, the quinquennial age groups recommended by the United Nations for population censuses have been adopted.

Details of the tables included in the C-Series are given below :-

- C-I Composition of Sample Households by Relationship to Head of Family classified by Size of Land cultivated (Based on 20% Sample)
- C-II Age and Marital Status
- C-III Part A—Age, Sex and Education in *All areas*.  
Part B—Age, Sex and Education in *Urban areas only*.  
Part C—Age, Sex and Education in *Rural areas only*.
- C-IV Single Year Age Returns.
- C-V Mother Tongue (Alphabetical Order).
- C-VI Bilingualism
- C-VII Religion.
- C-VIII Scheduled Castes and Scheduled Tribes  
Part A—Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes  
Part B—Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes.

Table C-VIII which gives the total population of Scheduled Castes and Scheduled Tribes and their distribution by nine industrial categories of workers and non-workers and by literacy has been included in this series. Other special tables in respect of the Scheduled Castes and Scheduled Tribes are presented in a separate series.

The following instructions were issued to the Enumerators on how to fill up the Individual slips.

In each household you should first enumerate the Head of the household followed by other members of the household in the most convenient order and see that none of the persons in the household is left out. Please make repeated enquiries about infants and very young children for they are liable to be left out of count. Count near relatives first, such as wife, son, daughter, daughter-in-law, son-in-law, grand-children, then distant relations and then domestic servants or other employees living in the household, boarders, visitors, etc.

#### *Location Code*

Write the Location Code of the household in each slip. Your supervisor will give you the code number representing your district, tehsil/ thana/town, village ward block. You should take care to write these three numbers connected together by oblique strokes in between on every slip.

#### *Q. 1 (a) Name*

Write the name of the person enumerated. If a woman's name is not given out describe her as "so-and-so's mother, wife or daughter". If a woman does not take the name of her husband and that husband's particulars have to be recorded write "so-and-so's husband".

For newly born infants who have not yet been given a name write 'Baby' and write 'father's or mother's name'.

#### *Q. 1 (b) Relationship to the Head of the household*

In the case of the Head of the household write 'Head'. The Head of the household for census

purpose, is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. In the case of institutions like boarding houses, messes and chummeries, which should be regarded as houses of 'unrelated persons living together', the manager or the superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head should be recorded as Head of the household.

All relationships in this question should be recorded in respect of Head of the household. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether brother's or sister's son or daughter, (for nephew or niece) or father's or mother's brother (uncle). 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, boarders or employees write 'visitor', 'Boarder', or 'employee' as the case may be. In the case of institutions the member should be recorded as unrelated.

If on the check or revisional round between 1st and 5th March the Head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the dead Head of household will, of course, be cancelled.

### Q. 2 Age in completed years last birthday

Write age in years completed last birthday. For infants below one year of age, write '0'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose.

### Q. 3 Marital Status

For Never Married	...	...	write NM
Married	...	...	write M
Widowed	...	...	write W
Separated or Divorced	...	...	write S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

### Q. 4 (a) Birthplace

- |   |  |
|---|--|
| 1. If born in village or town in which enumerated                         | write PL   |
| 2. If born in another village or town of district in which enumerated     | write D  |
| 3. If born in another district in the State of enumeration                | write name of district   |
| 4. If born in another State in India                                      | write name of district and State if name of district is known; otherwise write name of State |
| 5. If born in a country outside India e.g., Pakistan or any other country | write name of country  |

6. Persons born at sea or in air or in railway carriages or on road transport *e.g.*, buses, *etc.*, should be entered as such

**Q. 4 (b) Whether born in village or town**

- |   |  |   |
|---|--|---|
| 1. If born in a village or town   | write  | R |
| 2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth | write  | U |
| 3. If the person enumerated is not in a position to say whether the place of birth is a village or town                   | write the name of the place of birth as returned by him. |   |

**Q. 4 (c) Duration of Residence**

- |  |  |   |
|--|--|---|
| 1. For a person born in village or town or city in which enumerated  | write  | X |
| 2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration: | write the number of completed years this person has been in the village town or city of enumeration.<br>(Do not take into account periods of temporary absence on leave or holiday or tour or business.) |   |
| 3. If the duration of residence is less than one year  | write  | 0 |

If the duration of residence is one year or over

write the actual number of completed years of residence.

**Q. 5 (a) Nationality**

- |                         |     |     |                                |   |
|-------------------------|-----|-----|--------------------------------|---|
| 1. For Indian nationals | ... | ... | write                          | I |
| 2. For other nationals  | ... | .   | write the nationality in full. |   |

**Q. 5 (b) Religion**

- |           |     |     |       |   |
|-----------|-----|-----|-------|---|
| For Hindu | ... | ... | write | H |
| Muslim    | ... | ... | write | M |
| Christian | ..  | ... | write | C |
| Jain      | ..  | ... | write | J |
| Buddhist  | ... | ... | write | B |
| Sikh      | .   | ... | write | S |

For others write the answers actually returned

**Q. 5 (c) Schedule Caste and Scheduled Tribes**

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district will be found in the 'instructions' given to you.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as *Harizan*, *Achut*. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely *Harizan* tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled

Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5 (b). Scheduled Tribes may belong to any religion.

#### *Q. 6 Literacy and Education*

##### **I. Illiterate or Literate.**

For a person

- 1 Who can neither read nor write      write 0  
or can merely read but cannot  
write in any language
2. Who can both read and write      write 1.

The test for reading is ability to read any simple letter either in print or in manuscript *i.e.*, if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

##### **II. Standard of education.**

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of 'L'

#### *Q. 7 (a) Mother Tongue*

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

#### *Q. 7 (b) Any other Language (s)*

After recording the mother tongue enquire whether the person knows any other language (s), Indian or foreign, and write the language (s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue

which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

#### *Qs. 8 to 11 Working*

These questions apply only to worker. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10, and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q.8 and Q.9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q.8 and Q.10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Question 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will

be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *Worker*. A person who has been offered work but has not actually joined should be treated as *non-work*. *Work includes not only actual work but effective supervision and direction of work*.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she carries herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non agricultural royalty, rent or dividend receiver, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in question 11.

After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put

a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8, to 11, i.e., more than two of the questions, 8, to 11 would have been filled up by some work. In such cases you should first ascertain the principal work, i.e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e., the work after his principal work which occupies next time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

*Under Q. 8* Cultivation involving ploughing sowing and harvesting.

1 Production of cereal crops (including Bengal gram) such as rice, wheat, *jowar*, *bajra*, maize, roots and tubers like potato, yam, beet, etc., sugarcane etc.

2 Production of pulses, such as *arhar*, *moong*, *masur*, and *khesari* other gram.

3 Production of raw jute and kindred fibre crops.

4 Production of raw cotton and kindred fibre crops.

*Under Q. 11* Other Field Produce, Plantation Crops.

*A Other Field Produce*

1. Production of other crops including vegetables not covered in Q. 8.

2. Production of fruits and nuts in plantations, vines and orchards (like cocoanut, arecanut etc.)

3 Production of wood, bamboo, cane reeds, thatching grass, etc.

4 Production of juice by tapping palms.

5 Production of other agricultural produce (including fruits and nuts not covered by S1. No. 2 and flowers) not covered above.

*B. Plantation Crops :*

- 1 Production of tea in plantation.
- 2 Production of coffee in plantation.
- 3 Production of rubber in plantation.
- 4 Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).
- 5 Production of *ganja*, cinchona, opium, poppy, saffron etc.
- 6 Production of other plantation crops not covered above.

*Q. 8. Working as Cultivator*

For a person working as Cultivator write 'C'. For a person not working as Cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or Family worker in (a) Cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as Cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share

such as share of produce (Agricultural Labourer) will not be treated as Cultivator in this question.

*Q. 9. Working as Agricultural Labourer*

Write 'AL' for a person working as Agricultural Labourer, i.e., a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

*Qs. 10 (a) and 10 (b) Household Industry*

If a person is working in a Household Industry write (i) the nature of work done by him in the Household Industry against question 10 (a) and (ii) the nature of the Household Industry against question 10 (b). Otherwise, put 'X' in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid

employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

**Q. 10 (c) Employee in Household Industry**

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write 'EE'. For all others put 'X'

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry.

**Q. 10 Working at Household Industry**

(a) Nature of Work	(b) Nature of Household Industry	(c) If Employee
1 Spinning yarn	Spinning yarn on <i>Ambar Charkha</i>	X
2 Dyeing and printing yarn	Handloom weaving	X
3 Threshing and cleaning grain	Flour making <i>Chakki</i>	X
4 Labourer employed for crushing oil	Oil <i>ghani</i>	EE
5 Tempering and polishing implements	Blacksmithy making agricultural implements	X
6 Labourer employed for making and firing kiln	Earthenware pottery	EE
7 Throwing and Turning pottery	Earthenware pottery	X
8 Making wooden doors and windows	Carpentry	X
9 Filling gold ornaments with lac	Goldsmithy	X
10 Labourer working on hosiery machine	Hosiery	EE
11 Keeping accounts	Hosiery	X
12 Polishing and Scarping metal	Electroplating	X
13 Labourer employed for putting iron hoop on cartwheels	Cartwheelwright	EE
14 Repairing of guns	Gunsmithy	X
15 Bee Keeping	Production of honey	X
16 Tending cattle	Livestock raising	X

**Q. 11 Doing work other than 8, 9 or 10.**

If a worker is not working as a Cultivator or as an Agricultural Labourer or at any Household Industry write the actual work he is doing. If a person is working as a Cultivator or as an Agricultural Labourer or at Household Industry and also does some other work (including dairing or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one

work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time,

**Q. 11 (a) Nature of work**

In the case of persons not working or who work only as Cultivator or as Agricultural Labourer or at Household Industry, put 'X'

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in

vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

**Q. 11. (b) Nature of Industry, Profession, Trade or Service**

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, profession, trade or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom 'X' is put in question 11 (a) put 'X' in this question also.

**Important points to remember in Questions 11 (a) and 11 (b).**

1 Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and 'HW' written in brackets after the full description.*

2 If a person makes the articles he sells, he should be entered as makes and seller of them.

3 Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4 The following are too vague and must not be used by themselves :

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foremen, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

**Labourers**—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6 **Machine Operators**—Always state the kind of machine giving its recognized name, if any.

7 **Shop-keeper, Retail Dealer, Shop Assistants**—If wholly or mainly engaged in selling, write 'Dealer' (if principal) or 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (e.g. ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners)

8 **Transport Workers**—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9 **Services**—For a persons engaged in the Defence Services write 'Service of Central Government'.

10 If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable e.g., 'Sales Manager', or a 'Manager' of Hardware Department, 'Machine Shop Foreman' or 'Boiler Room Foreman,' etc. The following terms are insufficient by themselves :

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. **Domestic Service**—In the case of any private servant e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institution, etc, the words hostel, restaurant etc., should be added.

For person in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i. e.*, they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12 *Commerce*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

#### Q. 11 (c) *Class of Worker*

For a person who is :

- 1 an *Employer*, that is, who hires write MR  
one or more persons in his  
work described in Q. 11 (a)
- 2 an *Employee*, that is, who does write EE  
his work described in Q. 11 (a)  
under others for wages or salary  
in cash or kind
- 3 a *Single Worker*, that is, who is write SW  
doing his work described in Q.  
11 (a) without employing others,  
except casually and without the  
help of other members of the  
family except casually. This  
will include workers working as  
members of co-operatives
- 4 a *Family Worker*, that is, who is write FW  
doing his work described in Q.  
11 (a) in own family without  
wages or salary in cash or kind

For a person for whom 'X' is put in Qs. 11 (a) and 11 (b) put 'X' in this question also.

*Explanation :—*

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates

under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11 (c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners are members of such producers, co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

#### Q. 11 (d) *Name of Establishment*

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a

person has no fixed place of work, write 'No fixed place of work'.

11 (b) and 11 (c) put 'X' in this question also.

The following examples will illustrate how Qs.

11 (a) to 11 (d) should be filled up for persons doing work other than 8, 9, or 10.

For a person for whom 'X' is put in Qs. 11 (a),

*Q. 11.—Doing work other than 8, 9 or 10*

Q. 11 (a) Nature of Work	Q. 11 (b) Nature of Industry, Profession, Trade or Service	Q. 11 (c) Class of Worker	Q. 11 (d) Name of Estab- lishment

58 Political worker	Political work	SW	Name of party

**Q. 12. Activity, if not Working.**

This question will apply to a person NOT WORKING.

Write 'X' in this question for a person who is working that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT WORKING :

- 1 For a full time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business Write ST
- 2 For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business Write HW
- 3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age Write D
- 4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work Write R
- 5 For a beggar, a vagrant or an independent woman without indication of source of income and others of unspecified source of existence Write B
- 6 For a convict in jail (an under-trial prisoner will be shown as a worker if he used to work before he was apprehended) or

an inmate of a penal, mental or cheritable institution

- 7 For a person who has not been employed before but is seeking employment for the first time Write NE
- 8 For a person employed before but now out of employment and seeking employment Write UN

**Explanation :—**

If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write 'B' in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

**Q. 13. Sex**

Write 'M' for Males; and 'F' for Females

For eunuchs and hermaphrodites Write M

A special enumeration of Scientific and Technical Personnel was held along with the population census of 1961. This was done on the recommendation of the Council of Scientific and Industrial Research. The main idea was to obtain detailed information about persons having qualifications in Science and Technology. A special enumeration card was designed in the form of a business reply card. A separate Code number has been allotted to each State and Union Territory. For Manipur the Code number was "XVIII". These cards were sent to the Enumerators through the charge Superintendents with instructions to distribute them whenever Technically qualified persons are found in the household in their respective blocks during the period of actual enumeration. The standing instructions were that the enumerators should primarily ask the Technically qualified persons to fill up the cards distributed to them in time for collection by the enumerators in their Revisional Rounds. In case the cards have not been filled up by the persons concerned before the Revisional Round of the

enumerators they (technically qualified persons) should invariably be requested by the enumerators to fill up the card and post them through the nearest post office.

In Manipur this special enumeration was conducted in the urban areas and the Sub-divisional Headquarters, where technically qualified personnel was likely to be concentrated.

The academic qualifications of those for whom the cards may be distributed are listed in the fly-leaf of Appendix to Table C—III.

Tabulation of the data collected through this special enumeration was done centrally at New Delhi, and the following 8 (eight) tables, were prepared for Manipur. These Tables are published in this Part as an Appendices to Table C—III.

- 1 State Table I—Classification of each branch and sub-branch of science or technology.
- 2 „ „ II—Types of activity and merital status of persons in each branch of science or technology.
- 3 „ „ III—Year of obtaining Post-graduate Degrees in Physical Science and Graduates and Doctorate Degrees in

Engineering, Technology and selected branch of medicine.

- 4 State Table IV—Persons holding degrees in Engineering, Technology and selected branch of medicine and also holding degrees in selected branch of physical science
- 5 „ „ V—Nature of sector of employment of persons in each branch of science or Technology,
- 6 „ „ VI—Total monthly income of persons employed in each branch of science or technology by sector of employment
- 7 „ „ VII—Tenure and sector of employment of persons in each branch of science or technology.
- 8 „ „ VIII—Age and period of employment of unemployed persons qualified in any branch of science or technology.

## TABLE C-I

**Composition of Sample Households by Relationship to Head of Family  
Classified by Size of Land Cultivated**

*(Based on 20% Sample)*

**Fly-Leaf**

This table which has been prepared on a 20 per cent sample of household from Part II Census Population Record of Household Schedules shows the composition of households engaged (i) neither in cultivation nor household industry, (ii) in household industry only and (iii) in cultivation only. The last category of households has further been divided into ten categories according to size of holding.

A household has been defined as the entire group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so. In some census houses there may be more than one group of persons or household each with a common mess or each occupying either a number of

rooms or more than one household occupying a single room. Each such group has been treated as a separate household. Institutions like boarding houses, messes and chummeries have also been regarded as census households of unrelated persons living together. It thus includes unrelated persons as well residing with the family during the period of enumeration and gives composition of a household by family and non-family members. Besides the heads of households and their spouses, other family members like married sons, relations as well as unrelated persons are shown separately by sex and marital status. The table will be of sociological interest indicating the strength of the joint family system.

## C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD

(a) Households engaged neither in cultivation nor household industry. (b) Households engaged in household industry.

(c) Households engaged in cultivation.

The heads of households are shown as less than the total number of households in some areas on account of the fact that some enumerators had apparently not indicated any person as the head of household in the "Population Record" where the conventional head of household was absent from the household at the time of enumeration and had not been enumerated in that household.

**TABLE C-II**  
**Age and Marital Status**

**Fly-Leaf**

This table in which data have been furnished separately for total, rural and urban areas of the Territory is an important demographic table. The marital statuses shown in the table are (i) Never Married, (ii) Married, (iii) Widowed, (iv) Divorced or separated and (v) Unspecified. The age-groups conform to international requirements. It can be ascertained, from this table whether proportions in the various marital status conditions have increased or decreased since the last census and whether any trend is observed in the age of marriage. The table

will also give an indication of mortality in different Marital Statuses and in different age-groups. The data on married females by age-group can be utilised for forecasting the future births from age specific birth rates.

This table corresponds to Table C-III of 1951 which was prepared on a 10% sample of the slips taken out at the initial stage of sorting. The present table has been compiled on the basis of full count. The data on marital status are given for 14 age-groups in 1961 as against 11 in 1951.

TABLE C-III

**PART A—Age, Sex and Education in *All Areas*****PART B—Age, Sex and Education in *Urban Areas only*****PART C—Age, Sex and Education in *Rural Areas only***

Fly-Leaf

This table has been presented in three parts. Part A relates to all areas and Parts B and C relate to the urban and rural areas respectively. It gives five yearly age-groups upto 34, the other age-groups being 35-44, 45-59 and 60 and over. All persons of the first age group i.e. 0-4, have been regarded as illiterate irrespective of the actual entry made in the individual slip. The corresponding Table C-IV of 1951 was prepared on a 10% sample of the slips whereas this table has been prepared on the basis of full count. In 1951, data were furnished by literates and illiterates only. In the present Census, detailed classification by educational levels such as (i) Literate (without educational level), (ii) Primary or Junior Basic, and (iii) Matriculation and above has been adopted for Parts A & C of the table. In Part B relating to urban areas, the following detailed educational levels are given :—

- 1 Literate (without educational level)
- 2 Primary or Junior Basic
- 3 Matriculation or Higher Secondary
- 4 Technical diploma not equal to degree

- 5 Non-technical diploma not equal to degree
- 6 University degree or post-graduate degree other than technical degree, and
- 7 Technical degree or diploma equal to degree or post-graduate degree further classified as under
  - i) Engineering
  - ii) Medicine
  - iii) Agriculture
  - iv) Veterinary and dairying
  - v) Technology
  - vi) Teaching, and
  - vii) Others

This table will measure the growth of literacy in the total as well as in the different age-groups since the last census, and will also furnish information on the growth of adult education.

A special census of Scientific and technical personnel was also held in which data on persons who held technical degrees or diplomas equivalent to degree were collected. The Tables prepared on the basis of these data are presented as an appendix to this table

## APPENDIX TO TABLE C-III

## Special Tables on Technically Qualified Persons

## Fly-Leaf

Alongside counting of heads and collection of various socio-economic data, a special census of Scientific and Technical Personnel was taken during the census of 1961. For the purpose of collecting data on technically qualified persons, a special card was designed by the office of the Registrar General. These cards were distributed by the enumerators to households wherein technically qualified persons resided, after filling in the Location Code Number, during the period of enumeration. The enumerators collected the filled up cards during their revisional round, and passed them on to their Superior officers for onward transmission to the office of the Superintendent of Census Operations, who in his turn sent the cards to the office of the Registrar General. Enumerators were instructed to persuade the technically qualified persons to fill up the cards in their presence wherever they were found not to have filled up the same. Those who could not do so were requested to post these cards to the Registrar General, India, direct after filling up. The Questionnaire through which the information was collected for the Scientific and Technical personnel has been explained in the introductory note.

The academic qualifications of persons considered technically qualified and to whom the cards were distributed are listed below :

- 1 Science—Any one holding B.A. or B.Sc., M.A. or M.Sc. or higher degrees (Ph.D., etc) in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-Physics, Geography, etc.
- 2 Engineering—Any one holding recognised degree or diploma in Engineering.
- 3 Technology—Any one holding degree or diploma in technical subjects like Commercial Technology, Leather Technology, Textile Technology, Glass and Ceramic Technology, Food Technology, etc.
- 4 Medicine—Persons holding degree or diploma in medicine and or surgery.

Thus undergraduate scientists (*i.e.*, those who have not got any Bachelor's degree) or mechanics and technicians even though possessing certificates will not be covered by this special enumeration. The data have been processed in the office of the Registrar General, India and the tables prepared on the basis of these data are presented in the following pages.

**TABLE C-IV**  
**Single Year Age Returns**

**Fly-leaf**

This Table which has been prepared separately for Total, Rural and Urban population is an important demographic table. This will be used by the Census Actuary for computing the mortality rates from the age data of the earlier censuses and for the preparation of life tables. This table will also afford useful study on bias in age returns by

showing the population preference for certain digits. The corresponding table of 1951 is C-V which was prepared on a 10% sample. The present table has been prepared on the basis of full count.

The single year ages above 100 that obtain in Manipur and the Sub-divisions are shown in the following Statement :—

Union Territory/ Sub-division	Single year Age Returns	Total		Rural		Urban	
		Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8
Manipur	101		1		1		
	102	2	1		1

**TABLE C-V**  
**MOTHER-TONGUE (alphabetical order)**

**Fly-Leaf**

This table has been prepared separately for Total, Rural and Urban for the Territory as a whole and Sub-division figures are given for Total only. This is an important table for our country where a large number of languages and dialects are spoken. A study of the languages returned as mother-tongues has been undertaken and the table has been prepared in a rational manner. Fly-leaf prepared by Shri R. C. Nigam, Linguist is reproduced below :

**NOTE 1**

(i) The following mother-tongues arranged in alphabetical order in Col. 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification No. is mentioned against each mother-tongue in Col. 3.

(ii) If in Col. 3 no Classification No. is given against any mother-tongue of Col. 1 then it would mean that the name refers to either old or middle Indo-Aryan language or a language group or branch or family name from Linguistic Survey of India.

(iii) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mother-tongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which in its turn has been classified by Linguistic Survey of India in the appropriate place for that tongue.

(iv) If in Col. 1, there is a tongue which bears no Classification No. in the Linguistic Survey of India then in Col. 2 the name of the classified language or group will be given of which the mother-tongue of Col. 1 is either a dialect or another name or form. In such case the number of classified language of Col. 2 has been given in Col. 1

Alphabetical order of mother-tongues classified by the Linguistic Survey of India	Classified name in the Lingu- istic Survey of India	Classification No. in the Linguistic Sur- vey of India

Lemci	(T) Kachcha Naga
Lhouvum	(T) Thado
Liangmei	(T) Kachcha Naga
Lumhao	(T) Thado
Mate	(T) Thado
Moyon	(T) Anal
Neisel	(T) Kuki Group
Paomata	(T) Mao
Rongmei	(T) Kabui
Sangtam	(T) Naga Group
Shongthu	(T) Thado
Simte	(T) Kuki Group
Singson	(T) Thado
Tezang	(T) Thado
Tidim	(T) Simtc-Kuki
Zou	(T) Simtc-Kuki

## NOTE 3

Mother-tongues outside the Indian Sub-continent which have been printed in italics in the Table have been arranged by the Linguist according to (a) mother-tongues of other Asian Countries and (b) mother-tongues of each of the other Continents in the following manner :

Other Asian Countries/ other Continents.	Mother-tongue
1. Other Asian Countries	Burmese, Chinese/ Chini
2. Europe	English, Irish, Italian

## NOTE 4

The following mother-tongues which appear in the table have been found unclassifiable by the Linguist for want of any dependable information on them so far :—

Lunkhul, Ngaitte, Sengou, Simni

**NOTE 5**

Column 2 shows variant spellings or forms of mother-tongue returns which are rationalized to the names given against them in Column 1.

Rationalized forms of names of mother-tongue as listed in Table C-V

1  
Chote  
Gurmukhi  
Khongzai  
Monsang/Mongsen  
Neisel  
Oriya  
Tezang  
Thado

Variant forms of the names of mother-tongue recorded during enumeration and/or transcription

2

\*Entirely rural. The figures of rural are the same as that of "Total."

**NOTE** :—(i) Mother tongues printed in antique belong to countries outside the Indian Sub-continent.

(ii) Names occurring after hyphen (-) have been introduced by the Linguist to indicate groupings.

(iii) Asterisk (\*) means, that the mother-tongue is classified in Linguistic Survey of India.

(iv) Dagger (†) denotes that the mother-tongue though classified in the Linguistic Survey of India is either tentatively reclassified or considered unclassifiable by the Linguist.

(v) Asterisk and dagger (\*†) denote that the mother-tongue is unclassified by Grierson but is tentatively classified by the Linguist.

(Mother-tongues underlined will be printed in antique)

TABLE C-VI

**Bilingualism**

Fly-leaf

This Table is presented down to the Sub-division. It is important especially for linguistic borders where one language impinges on the other. The table may be of special interest to linguists as it shows bilingualism in a border Territory like Manipur where a multiplicity of languages and dialects are spoken. It presents data in respect of total speakers of mothertongue, total number of persons returned as speaking a language subsidiary to the mothertongue and the break-up of subsidiary language into male and female speakers. The mothertongues, speakers of which do not speak any subsidiary language in any part of the

Union Territory of Manipur have been excluded from this Table. Mothertongues having speakers below 0.5 per cent of the general population have not been shown in the table. In the case of respondents who spoke and understood more than one language in addition to their mothertongues, two languages were recorded by the enumerators but for the purpose of tabulation only the first recorded subsidiary language was taken into account. The bilingual statistics in this table are, therefore, based on the first recorded subsidiary language.

The table corresponds to Table D—I (ii) of 1951.

## **TABLE C—VII**

### **Religion**

#### **Fly-Leaf**

This is an important sociological table which presents distribution of the population according to religion arranged in alphabetical order. The table corresponds to Table D-II of 1951. The six main religions shown in this table are (i) Buddhist,

(ii) Christian, (iii) Hindu, (iv) Jain, (v) Muslim, and (vi) Sikh. Persons whose religion has not been reported have been grouped under the column 'Religion not stated'.

**TABLE—C-VIII SCHEDULED CASTES AND SCHEDULED TRIBES**

**Part A—Classification by literacy and industrial category of workers and non-workers among Scheduled Castes**

**Part B Classification by literacy and industrial category of workers and non-workers among Scheduled Tribes**

**Fly-Leaf**

This is a general table prepared in respect of the Scheduled Castes and Scheduled Tribes, and is presented down to the level of the Sub division. Part A of the table deals with the Scheduled Castes and Part B relates to the Scheduled Tribes. This table corresponds to Table D-III of 1951 which furnished only the total figures of Scheduled Castes and Scheduled Tribes. The present table is more elaborate in that it gives separately the total popu-

lation of Scheduled Castes and Scheduled Tribes, their distribution by literacy and classification of workers into nine industrial categories and non-workers. A number of special tables for the Scheduled Communities has also been compiled in SCT Series which will be published in a separate volume. Literacy figures for the Scheduled Castes and Scheduled Tribes have been furnished for the first time in the Census of 1961.

## **D—Migration Tables**

According to the tabulation plan adopted in the Census of 1961, there are 6 tables in this series as against 2 in 1951. Tables D—I and D—II of 1961 corresponds to table D—VI and D—IV of 1951 Census, but tables D—III to D—IV of the present series are introduced for the first time in 1961. In this series of tables lines of 'NIL' entries have been omitted. The D-Series Tables of 1961 are listed below :—

- 1 D-I —Non-Indian Nationals
- 2 D-II —Place of Birth
- 3 D-III—Migrants Classified by place of Birth and Duration of Residence in Place of Enumeration.
- 4 D-IV—Migrants to Cities Classified by Sex, Broad Age-groups, Educational levels and in case of Workers also by Occupational Divisions and Groups.

5 D-V —Cities showing Population Born Locally, Migrants from rural areas and Migrants from other towns and cities.

6 D-VI—Distribution of industrial categories of workers and non-workers by place of Birth.

For the purposes of these tables persons born in Sikkim have been treated as 'Born in India'.

Of the above tables, Tables D-IV and D-V have not been compiled in respect of Manipur as there are no cities in the Territory. The D-Series tables are compiled on the basis of the replies recorded against Qs. 2, 4 (a), 4 (b), 4 (c), 5 (a), 6 and 8 to 13 of the Individual Slip. Relevant instructions issued to the enumerators on how to fill up these questions are given in the explanatory note on the C-Social and Cultural tables of this part.

**TABLE D—I**

**Non-Indian Nationals**

**Fly-Leaf**

**This table presents data in respect of non-Indian Nationals classified by nationality. These nationals were resident in Manipur during the census. Major countries in each continent are shown separately. Nationals of smaller countries which have contributed an insignificant number of migrants are collectively**

**shown under 'Elsewhere' in that continent. Details of the countries coming under 'Elsewhere' have been furnished in Appendix I to this table. In this table the figures of non-Indian Nationals employed in foreign embassies and missions, were excluded. This table corresponds to Table D— VI of 1951.**

## D I—NON-INDIAN NATIONALS

[illegible]

## **TABLE D-II**

### **Place of Birth**

#### **Fly-Leaf**

This table gives the distribution of population in the Territory by birth-place. Migrants are shown in the table classified by the countries in which they were born. In the case of those born in India births in rural and urban areas have been given separately. Similarly the place of enumeration has been classified separately into rural and urban areas. Persons

whose birth-place has not been reported are shown under 'Unclassifiable'. Since Manipur is a one-district Union Territory, data relating to persons 'Born in other districts of the State' have not been shown. Under each continent the figures have been for individual countries. This table corresponds to table D—IV of 1951.

**TABLE D-III**

**MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE  
IN PLACE OF ENUMERATION**

**Fly-Leaf**

This is a new table introduced in 1961 and is based on a new question on migration. It gives duration of residence at the place of enumeration under six categories.

- 1 Less than 1 year
- 2 1-5 years
- 3 6-10 years
- 4 11-15 years

5 16 years and over

6 Period not stated

This table gives supplementary information for a detailed study of immigration. In case of migrants from countries outside India figures have been shown separately only for Nepal, and Pakistan, for other countries they have been lumped together. The group under '11-15 years' will yield information on population displaced by the Partition.

### D-III MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

**TABLE-VI**  
**DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND**  
**NON-WORKERS BY PLACE OF BIRTH**

Fly-leaf

This table shows distribution of birth-place by industrial categories of workers and non-workers. It thus gives valuable information on the category of workers among migrants by birth-place. The table is presented for total, rural and urban. Migrants

coming from all the other States and Union Territories of India as also from foreign countries have been shown in this table. Under each continent the figures have been shown for individual countries.
